
COLUMBIA RIVER COMPACT/JOINT STATE ACTION NOTICE

Washington Department of Fish and Wildlife

April 16, 2012

The Compact met today to consider additional non-Indian mainstem commercial fishing periods.

The Compact took no action, meaning no fishery was set.

The Compact will wait until a run size update is available before considering additional mainstem commercial fishing periods. A run size update will not be available until late April or early May.

A Joint State hearing is scheduled for 1p Thursday April 19 to review the ongoing sport fishery downstream of Bonneville Dam.
