Ms. Preuss,

I want to express my support for removing bag limits to help reduce impacts from introduced walleye and bass. I am an avid fisher, and spend a lot of time and money fishing for salmon and steelhead all over the Pacific Northwest. I do occasionally fish for bass and catfish, but have lots of locations to fish that do not also contain juvenile steelhead and salmon. I realize this may be a controversial topic, however we have a responsibility to do more. If we can spend millions of dollars and lethally remove native species in the name of salmon/steelhead recovery ie.. sea lions, pike-minnow, and terns, it only makes sense to manage for fewer not more non-native fish in the same waters. Thank you for your consideration.

Justin Peterson
