A Message
from the

Department of Fish and Wildlife

Lisa Pelly, Chair
Washington
Fish and Wildlife Commission

With the daunting task of saving wild salmon dominating the news and much of the Department of Fish and Wildlife's attention, it's easy to forget that there is still great recreational fishing in our state.

Salmon fishing is increasingly restricted by conservation needs, but opportunities still exist. For example, the Puget Sound Recreational Salmon and Marine Fish Enhancement Program, created by the Legislature in 1994, is expected to contribute to sport catches throughout the Sound this year (see page 12 for details). Many of the state's lakes now are open for fishing year-round for freshwater anglers. Even so, more than a half million anglers were expected to turn out for the traditional season opener in April. To meet demand, WDFW fish hatcheries stock nearly ten million fry that mature in time for the spring opener. In addition, about 3.7 million catchable-sized trout are planted in lakes in March and April.

Besides stocking programs, the department also is working to improve fishing through the Warmwater Enhancement Program (for more information see page 12).

An annual highlight for anglers is the Free Fishing Weekend June 7 and 8 when no license is required to fish, except a steelhead license and catch record card is required for steelhead. Free catch record cards are also required for salmon, halibut and sturgeon. A list of regional hotspots selected by department fish biologists as the best places for good fishing on the free weekend is available from the WDFW Olympia or regional offices. The hotspots often are stocked with extra trout for this weekend and many also have good populations of warmwater fish.

Shellfish enthusiasts can gather shrimp and crab, as well as collect razor clams on ocean beaches and hunt for hardshell clams on Puget Sound shoreline. For more information the department offers a "Shellfish of Washington" brochure and a "Puget Sound Public Shellfish Sites" pamphlet.

Enjoy your fishing this year. But keep an eye to the future and get involved in the fight to save wild salmon and trout. We hope all fishers will pitch in to form the grassroots movement that will be necessary to restore wild fish runs. Talk to your friends and neighbors, write letters to political officials, join a watershed restoration group and become active. Your actions will determine how much fishing you and your children do in the years to come.

Non-Discrimination

The Washington Department of Fish and Wildlife will provide equal opportunities to all potential and existing employees without regard to race, creed, color, sex, sexual orientation, religion, age, marital status, national origin, disability, or Vietnam Era Veteran's status. The Department receives Federal Aid for fish and wildlife restoration.

The Department is subject to Title VI of the Civil Rights Act of 1964 and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of race, color, national origin or handicap. If you believe you have been discriminated against in any Department program, activity, or facility, or if you want further information about Title VI or Section 504, write to: Office of Equal Opportunity, U.S. Department of Interior, Washington, D.C. 20240, or Washington Department of Fish and Wildlife, 600 Capitol Way N, Olympia WA 98501-1091.

Sportfishing Rules Want to get Involved?

The process for adopting changes to the sportfishing rules for the 1998-1999 season will begin in May 1997. Those of you who participated last year will receive a mailout describing the process. If you haven't been involved and want to, contact us right away!

Free Fishing Weekend

The weekend corresponding with National Fishing Week has been declared "Free Fishing Weekend" in Washington. On this weekend, June 7-8, 1997 fishing licenses will not be required for food fish, shellfish and game fish except steelhead trout.

These free fishing days are valid for everyone, regardless of residency or age. All other regulations remain in effect. Only waters open to fishing may be fished; lure and/or bait restrictions along with size and catch limits currently in place must be followed.

Fishing Contests

Any event where six or more people fish competitively for game fish and determine winners, regardless of the prize value, is defined as a fishing contest, and requires a permit from WDFW. For more information, or to request an application for a permit to conduct a fishing contest, contact WDFW's Freshwater Resources Division at (360) 902-2820. There is a \$24 fee for the permit.

License Information

1 ●●●●●●●●

Licenses:

Are required for residents 15 years of age and over and non-residents regardless of age.

2 ●●●●●●●●

Resident:

Is a person who has lived in Washington at least ninety (90) days preceding license purchase and does not hold a resident license from any other state.

3 ●●●●●●●●

Licenses and Catch Record Cards:

Are valid for the calendar year in which they are issued, except Steelhead Catch Record Cards, which are valid from May 1 through April 30.

4 ●●●●●●●●

All Licenses:

Must be on your person while harvesting. Shellfish/Seaweed licenses must always be displayed on the outside of clothing while harvesting or transporting shellfish or seaweed.

Catch Record Cards

Catch Record Cards are an important management tool for estimating the recreational catch of some species. All Catch Record Cards are free with the purchase of the appropriate fishing license. Salmon, sturgeon, and halibut Catch Record Cards are valid for the calendar year and expire Dec. 31. These cards (even those showing no catch) must be returned to the Department no later than Jan. 31 of the following year. Steelhead Catch Record Cards are valid until the Apr. 30 following issue and must be returned no later than June 30. If you return your steelhead Catch Record Card by June 1: a) you will receive a \$5 rebate on that day's license purchase if returned to a license dealer, or b) you will receive a \$5 non-transferable credit toward the purchase of next year's game fish license if returned to WDFW Licensing Division along with your name and address. Credit does not apply to juvenile (under 15 years old) Catch Record Cards.

Disabilities

A free Disability Food Fish/Game Fish/Shellfish/Seaweed License is available to persons who are

physically handicapped and confined to a wheelchair, blind, resident persons with a developmental disability, and qualified disabled veterans. A signed application is required and may be obtained by writing to WDFW or calling (360) 902-2464.

Catch Record Card and disability correspondence should be addressed to: Washington Department of Fish and Wildlife, Licensing Division, 600 Capitol Way North, Olympia, WA 98501-1091.

Whitefish
Yellow perch
Steelhead (see #5 below)

[In addition to a game fish license you may need:](#)

4. Warmwater Game Fish Enhancement

Required to fish for bass, channel catfish, crappie, walleye and tiger musky.

5. Steelhead License and Catch Record Card (Good for 30 Steelhead)

Only one may be issued per season (May 1-April 30).

Hunting License

Required for bullfrogs.

Conservation License

To use WDFW-owned lands if the user does not possess a valid hunting and/or game fish license.

Shellfish/Seaweed

Shellfish/Seaweed License

To fish for:

Crab
Goose barnacles
Mussels
Octopus
Oysters
Razor clams
Scallops
Sea cucumbers
Sea urchins
Shrimp
Soft and hardshell clams
Squid
Seaweed

No License Is Required

To fish for:

Albacore tuna
Common carp
Crayfish
Smelt

Fish and Shellfish Caught in Canada

If you are transporting Canadian-caught fish or shellfish into a Washington port, you must possess a Canadian license, and if required, a Canadian catch record. Shellfish or food fish other than salmon taken from Canadian waters must comply with Canadian sport fishing rules. You may not stop to fish in Washington waters if transporting Canadian-caught fish or shellfish that do not meet Washington fishing regulations.

All salmon landed at Washington ports must meet the restrictions in place for the port where landed at the time of the landing, including both daily and size limits. If the adjacent waters are closed, no landing of fresh salmon is allowed. You may not land both a Canadian and a Washington limit of salmon on the same day (one or the other, but not both).

1995 Steelhead License Holders

If you return your 1995 steelhead fishing license to the department prior to Dec. 31, 1997, you will be issued a \$6.00 nontransferable credit toward the purchase of a 1997 steelhead fishing license. If you

purchased a 1995 steelhead fishing license but are no longer in possession of the license, you may apply to the Department for the credit by completing a written affidavit provided by the Department. Call (360) 902-2464 for further information.

Statewide General Definitions

ANGLING (HOOK & LINE FISHING)

Fishing for personal use with a line attached to a pole capable of being held in hand while landing fish, or a hand-operated line without a rod or reel.

BAIT

Anything that attracts fish or shellfish by scent and/or flavor. This includes any device made of feathers, hair, fiber, wood, metal, glass, cork, leather, rubber, or plastic which uses scent and/or flavoring to attract fish or wildlife.

BOW AND ARROW FISHING

Taking food fish with a line attached to an arrow and propelled by a bow.

CATCH-AND-RELEASE FISHING

A type of fishing where all of the fish caught are released back into the water alive.

CHUMMING

Scattering feed or other materials to attract fish to a location.

CLOSED WATERS

A body of water where fishing is prohibited.

DAILY LIMIT

The maximum number or pounds of fish, shellfish, or seaweed of a given species and size which a person may legally keep in a single day.

FLY

A lure on which thread, feathers, hackle, or yarn cover a minimum of half of the shank of the hook. Metallic colored tape, tinsel, mylar, or beadeyes may be used as an integral part of the design of the fly pattern.

FLY FISHING ONLY

In "Fly Fishing Only" waters an angler may only use the following tackle: a fly with a barbless single hook, hooks 1/2" or smaller when measured from point to shank, and a conventional fly line (other line may be used for backing and leader if it is attached to at least 25' of conventional fly line). An angler may not use the following: a fixed spool reel, weight attached to the leader or line, bait, or monofilament leader that has a breaking strength of more than twelve pounds.

FROZEN

Fish or shellfish that are hard frozen throughout.

FRESH

Fish or shellfish that are refrigerated, iced, salted, or surface glazed.

GAFFING

Attempting to take fish by impaling fish with a hook attached directly to a pole or other device.

HOOK

BARBLESS

A hook from which all barbs have been deleted when manufactured, filed off, or pinched off.

SINGLE

A hook with a single point.

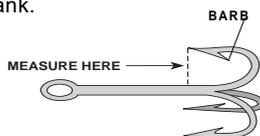

DOUBLE

A hook with two points on a common shank.

TREBLE -

A hook with three points on a common shank.

IN THE FIELD OR IN TRANSIT

Anywhere other than at an ordinary residence. Dockside fish cleaning facilities, boat ramps, and cold storage lockers are considered in the field.

JUVENILE ONLY

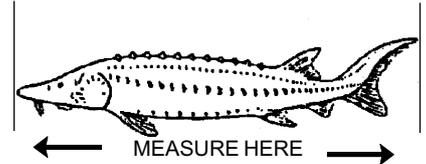

Waters open for fishing only to youth under 15 years of age.

LANDLOCKED SALMON RULES

In landlocked waters, salmon are regulated as trout. Seasons, daily limits, and size restriction rules for landlocked salmon are identical to the game fish rules for trout in the same water. The angler's combined catch of salmon and trout applies toward the trout limit. A Catch Record Card is not required to retain landlocked salmon.

LENGTH

The shortest distance between the tip of the nose and the extreme tip of the tail, measured while the fish is laying on its side on a flat surface with its tail in a normal position.

LURE

A manufactured article constructed of feathers, hair, fiber, wood, metal, glass, cork, leather, rubber, or plastic which does not use scent and/or flavoring to attract fish.

MAXIMUM SIZE

The largest size of fish or shellfish that may be kept by an angler. For fish, the maximum size refers to the length.

MINIMUM SIZE

The smallest size of fish or shellfish that may be kept by an angler. For fish, the minimum size refers to the length.

MOUTH

Unless otherwise defined, the mouth of a stream, river or slough is a line projected between the outermost uplands at the mouth. Outermost uplands are those lands not covered by water during ordinary high water.

NIGHT CLOSURE

Fishing is closed from one hour after official sunset to one hour before official sunrise.

NON-BUOYANT LURE

A lure (complete with hooks, swivels or other attachments) which does not float in fresh water.

NON-BUOYANT LURE RESTRICTION

The use of a non-buoyant lure that has more than one single hook or has a hook measuring more than 3/4" point to shank is prohibited. (See single hook illustration this page).

Statewide General Definitions

ORDINARY RESIDENCE

A residential dwelling where a person normally lives, with associated features such as address, telephone number, utility account, etc. A motorhome or camper parked at a campsite are not considered to be an ordinary residence.

POSSESSION LIMIT

The number of daily limits allowed to be kept in the field, or in transit.

PROCESSED

Fish or shellfish that have been subjected to heat (including kippering, smoking, canning and boiling).

PUGET SOUND

All saltwater areas east of the Bonilla-Tatoosh line, outside the mouth of any river or stream, including the Strait of Juan de Fuca, Georgia Strait, Hood Canal, and all bays and inlets.

SELECTIVE FISHERY RULES

Only unscented artificial flies or lures with a barbless single hook are allowed; bait is prohibited; fish may be released until the daily limit is retained. No one may fish from any floating device equipped with a motor, except where specifically allowed under Special Rules for individual waters. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

SNAGGING

Attempting to take fish with a hook and line in such a way that the fish does not voluntarily take the hook(s) in its mouth.

SPEAR FISHING

Attempting to take fish by impaling the fish on a shaft, arrow, or other device.

WEIGHT

The weight of fish or shellfish before cleaning them and the wet weight for seaweed on which daily and possession pound limits are based.

Wild Coho Release

Wild coho may not be kept; only hatchery coho may be kept. Hatchery coho are identified by a missing adipose fin and a healed scar in the location of the missing fin.

WILD CUTTHROAT RELEASE

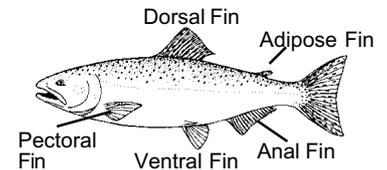

Wild cutthroat may not be kept; only hatchery cutthroat trout may be kept. Hatchery cutthroat trout are identified by a missing adipose fin and a healed scar in the location of the missing fin.

WILD STEELHEAD

Wild steelhead have intact adipose and ventral fins.

WILD STEELHEAD RELEASE

Wild steelhead may not be kept; only hatchery steelhead may be kept. Hatchery steelhead are identified by missing adipose or ventral fins and a healed scar in the location of the missing fin. It is illegal to use a gaff hook to land steelhead in waters designated "wild steelhead release."

Fish and Shellfish Definitions

ADULT SALMON

In freshwater, chinook 24" or more in length; coho 20" or more in length; and pink, chum and sockeye salmon 12" or more in length are adults.

BAITFISH

Includes anchovy, candlefish, herring, sardine, and smelt.

BOTTOMFISH

Includes Pacific cod, Pacific tomcod, Pacific hake or whiting, walleye pollock, all species of dabs, sole and flounders (except Pacific halibut), lingcod and other species of greenling, rattfish, sablefish, cabezon, buffalo sculpin, great sculpin, red Irish lord, brown Irish lord, Pacific staghorn sculpin, wolfeel, giant wrymouth, plainfin midshipman, all species of shark, skate, rockfish, rattail, and surfperches excluding shiner perch.

FOOD FISH

Includes baitfish, bottomfish, common carp, shad, tuna, mackerel, salmon and sturgeon.

GAME FISH

Includes bass, burbot (freshwater ling), catfish, crappie, grayling, northern squawfish, peamouth chub, yellow perch, northern pike, tiger musky, sucker, sunfish, trout (including steelhead), landlocked chinook, coho, and Atlantic salmon, walleye and whitefish.

JACK SALMON

Male chinook and coho salmon that return at a younger age than most members of their species. For freshwater rules, a jack salmon is a chinook less than 24" in length or a coho less than 20" in length.

KOKANEE

Freshwater resident sockeye salmon, also called silver trout. A Game Fish License is required to fish for kokanee and a Food Fish License and a Catch Record Card are required to fish for sockeye. Game fish or food fish daily limits apply, respectively. Where the sea-run and the resident forms occur together, refer to the Freshwater Special Rules for the size differences between kokanee and sockeye.

SEAWEED

Marine species of algae, such as kelp, rock weed, and sea lettuce.

SHELLFISH

Includes crab, razor clams, softshell and hardshell clams, oysters, all shrimp, sea cucumbers, sea urchins, abalone, scallops, goose barnacles, cockles, mussels, squid, octopus, and crawfish.

STEELHEAD

A sea-run rainbow trout over 20" in length.

TROUT

Includes rainbow trout, eastern brook, steelhead, brown, cutthroat, bull trout/Dolly Varden, golden, lake and kokanee (silver trout).

Statewide General Rules

Violations of State Laws

Harvest Rules

You May Not:

Fish in closed waters.

Possess fish or shellfish that do not meet the minimum and maximum size limits, weight limits, or sex restrictions, or in excess of the daily or possession limit.

Clean game fish, food fish or shellfish in the field so that the size, weight, species or sex of catch cannot be determined if there is a restriction of this type that applies to the catch.

Intentionally waste game fish, food fish or shellfish.

Remove eggs from salmon or sturgeon without keeping the body of the fish.

Use salmon, herring, or halibut for anything other than human consumption or fishing bait.

Possess or use live fish for game fish bait.

Fish for personal use from a boat being used for commercial fishing.

Fish for or harass game fish or food fish within 400 feet downstream of a man-made dam, fish ladder, or other obstruction or in rearing, holding, or passage facilities.

Harvest any part of another person's daily limit, except as provided for under physical disability permits.

You are Required to:

Cooperate with data collection or other sampling upon request of Department of Fish and Wildlife personnel, including relinquishing any part of a salmon, steelhead, or other species of fish containing coded-wire tags.

Stop at mandatory check stations established by the Department of Fish and Wildlife.

Show fish, shellfish, and seaweed in your possession and required licenses, catch record cards, and gear being used upon request of a Fish and Wildlife officer.

Fill out your Catch Record Card immediately upon retaining salmon, steelhead, halibut or sturgeon.

Gear Rules

You May Not:

Use drugs, explosives, or poison that may kill or injure wildlife.

Snag or attempt to snag fish.

Use more than one line with three hooks while fishing, except that (1) a second line using baitfish jigger gear is lawful while fishing in Marine Areas 5-13 and (2) not more than two hooks may be used when fishing for bottomfish or halibut.

Fish with a rod not under your immediate control.

Use a gaff hook or a net, except to land legally-hooked fish. (See also Marine Water and Freshwater Rules - some fish cannot be gaffed.)

Fish for salmon, sturgeon, octopus or crab in saltwater with underwater spearfishing gear.

Fish for game fish, salmon, shad, sturgeon, or shellfish with bow and arrow or spear.

Chum (broadcast feed) to attract game fish unless authorized by Special Rules.

Buying Treaty Indian Caught Fish

In order to buy, sell or possess steelhead, sea-run cutthroat, or Dolly Varden/bull trout lawfully taken by a treaty Indian, a person must meet the following requirement: the fish must be accompanied by a written statement showing taker's name, address, tribal affiliation, and treaty fish identification card number, number of fish, date and location where taken. This rule does not apply to treaty Indians nor to game fish purchased from a fish buyer licensed by the Department of Fish and Wildlife.

Possession Rules

You May Not:

Fish for or harvest fish or shellfish in an area with catch in your possession that does not meet the regulations of that area. You may, however, pass through such an area without stopping to fish.

Possess another person's game fish unless it is accompanied by a statement showing the name, address, license and tag number, date, county and area where it was taken, and the signature of the angler who harvested it.

Hold recreationally-caught food fish, game fish, or shellfish in storage by a custom canner, hotel or restaurant or a cold storage plant without tags listing the name and address of its owner.

Statewide General Rules

Reward for Tags

WDFW Tagging

The Department of Fish and Wildlife has released several million salmon with microscopic wire tags implanted in their heads and adipose fins removed. Each tagged head returned qualifies the angler for participation in a monthly drawing. Each month, \$1,000 is given away: one \$100 first prize, two \$50 second prizes, and 40 third prizes of \$20 each.

High Seas Tagging

Japan, Russia, and the U.S. have tagged salmon in international waters with disk tags. These are round, flat external tags and may be either solid red, orange and white, or red and white.

Tags should be returned to:

High Seas Project
University of Washington
Fisheries Research Institute
Box 357980
Seattle, Washington 98195-7980 USA

Everyone returning a tag will receive a hat with the High Seas Tagging Project emblem. Please enclose the following information when returning tags:

- 1) Location and date of recovery
- 2) Species and gear
- 3) Sex, length, and weight
- 4) A scale sample

If you cannot remove the tag, return the tag number and description of the tag with the above information. You may also return the entire tagged fish for an extra gift.

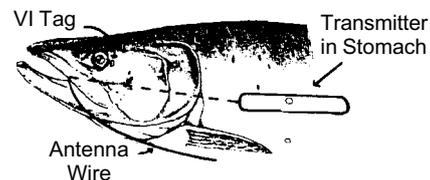

For more information call (206) 543-1101.

University of Idaho Tagging

University of Idaho personnel will release about 850 chinook, 600 sockeye and 800 steelhead equipped with radio transmitters and visual implant (VI) tags into the Columbia River near Bonneville Dam to study migration patterns. A radio transmitter is inserted into the stomach of each fish and is evident by the black antenna wire protruding from the mouth. The VI tag is a small yellow plastic tag with an alpha-numeric code (i.e., A75) which is inserted into the clear tissue behind the fish's eye. If you catch and keep one of these fish please:

Remove the transmitter and send it along with the following information:

- Your name, address and phone number
- Date and location of capture
- VI tag number and sex of fish if possible

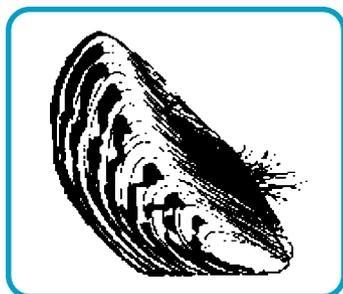

If you catch and release one of these fish please: **DO NOT REMOVE THE TRANSMITTER OR TAG.** Check both sides of the fish for the VI tag. If found, record the number.

Send transmitter, VI tag numbers, and other information to:

FISH
University of Idaho
Moscow, Idaho 83844
Your information will contribute to fish management in the Columbia River Basin and you will receive a \$25 reward.

Zebra Mussels

Zebra mussels are a threat to Washington fisheries because they filter microscopic plants and animals which small fish utilize for food. Trout, walleye and other fish are harmed by the reduction in available food. Named for alternating light and dark bands on their shell, zebra mussels are small, freshwater bivalve mollusks native to eastern Europe. They can grow up to two inches long, but most are under an inch.

Individual females can produce in excess of one million eggs per year and they can live in dense clusters of up to 75,000 mussels per square meter. Zebra mussels are now found in 21 states, all east of the Rocky Mountains, and are easily transported on boats, trailers and other recreational equipment. If you have used your boat and trailer anywhere in the Eastern U.S. or Canada in the last 30 days, you can help by:

- Pressure washing equipment with soapy water; or
- Washing with a 5 percent solution of household bleach; and
- Flushing bilge and livewells with bleach solution on dry land above the high water mark; and
- Running the motor through a minimum 5 percent bleach solution for at least one minute.

Harmful Exotic Species

Our native plants and animals can be damaged by the introduction of exotic species. To prevent this problem, it is illegal to plant or release any species, subspecies, or hybrids of animals (including fish) or aquatic plants into the state without a permit. It is also illegal to import or possess live specimens of walking catfish, diploid grass carp, African clawed frogs, bowfin, piranha, rudd, ide, garpike, and snakeheads.

Enhancement Programs

Regional Fisheries Enhancement Groups

Do You Want to Make a Difference?

The Washington Department of Fish and Wildlife, in partnership with the Regional Fisheries Enhancement Groups, is seeking interested volunteers to help with salmon restoration through:

- Habitat restoration and protection
- Salmon rearing
- Salmon data collection

All citizens, regardless of background or experience, are encouraged to volunteer for salmon enhancement activities. Contact the Regional Fisheries Enhancement Group in your area.

Program Overview-The Regional Fisheries Enhancement Program was created in 1990 as a means of including citizens in salmon enhancement efforts. Twelve non-profit groups of volunteers cooperate with the Department of Fish and Wildlife to improve salmon resources throughout the state. The program is supported by collection of a \$1.00 fee for recreational salmon licenses, \$100 fee for commercial salmon licenses, and funds received from the sale of surplus salmon eggs and carcasses from state hatcheries.

Warmwater Gamfish Enhancement

A warmwater game fish enhancement program was created by the 1996 Legislature. This program, funded by a license surcharge, is designed to increase opportunities to fish for and catch largemouth black bass, smallmouth black bass, channel catfish, black crappie, white crappie, walleye, and tiger musky. Resources generated from this surcharge will be used to enhance fishing opportunities for these species.

Puget Sound Recreational Salmon and Marine Fish Enhancement Program

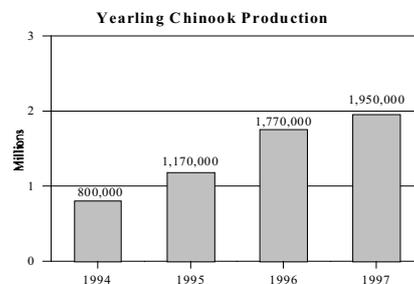

Created by the Washington Legislature in 1993, the program is designed to improve recreational fishing in Puget Sound.

The program is charged with raising and releasing yearling chinook into Puget Sound. The goal is to raise and release three million yearling chinook from freshwater sites each year beginning in the year 2000. These yearling chinook are simply reared for a year rather than the usual 90 days prior to release.

Yearling chinook are important to Puget Sound fishing because they tend to remain in the Sound as they grow and mature, while chinook released as fingerlings tend to migrate to distant ocean waters. The yearling chinook production level of three million fish was chosen because it represented a return to levels which existed when Puget Sound sport chinook catch was at a high.

Since it began in 1994, the program has coordinated activities with a citizen committee representing Puget Sound fishing groups and the sportfishing industry. This committee meets quarterly to review program activity and to suggest directions for the program.

Yearling salmon production has increased each year, steadily moving toward the target release of three million yearlings in the year 2000. Approximately 2.3 million chinook will be raised in a dozen rearing sites around Puget Sound for release in the spring of 1998.

The effort to increase yearling chinook production has proceeded in a thoughtful, science-based manner, with rearing sites that conform with the emerging Wild Salmonid Policy. Site selection included locations in the north, central, and southern portions of the Puget Sound basin. Sites are selected where the yearling chinook have the greatest chance of surviving a year of freshwater rearing. Water quality and quantity are critical to a successful rearing site, as is security for the young salmon. They need to be protected from predators, pollution, flood, drought, and vandals for the year they are held prior to release.

Marine Area Rules

1 Season and Daily Hours:

Fishing is CLOSED in marine waters unless a season is specifically authorized for a species under the Marine Area Rules. During an open season, marine waters are open 24 hours per day, except as noted for night closures.

2 Quota Management:

SALMON and HALIBUT are managed by quotas in some marine areas. These fisheries close when the quotas have been taken. Closures will be announced to local news media and included in the sportfishing hotline telephone message.

3 Regulation Changes:

Conditions may arise which will require changes in regulations. These changes will be announced to local news media and included in the Fishing Hotline message. Any emergency change will supersede regulations printed in this pamphlet.

Lawful Fishing Tackle General

HOOK AND LINE ANGLING only; one line with up to 3 hooks; hooks may be barbed or barbless unless noted differently in Species Rules.

ALL FISHING GEAR - Must be kept in immediate control and gear may not be left unattended while fishing.

LANDING A FISH - A gaff, club, or dipnet may be used to assist landing a legal fish taken by legal gear with these exceptions: STURGEON and STEELHEAD may not be gaffed in any saltwater area; LINGCOD may not be gaffed in Areas 5-13.

DOWNRIGGERS - May be used with a line if the line releases from the downrigger while playing and landing the fish.

ROD HOLDERS - May be used; the rod must be easily removed without delay; rod may be left in the holder while playing the fish.

ELECTRIC REELS - May be used if designed for sport fishing and attached to a fishing rod.

SPEARFISHING - The diver must be swimming or floating in the water while spearfishing. The use of explosives or bullets attached to the spear ("bang sticks") is prohibited.

Species Rules

TROUT - When fishing with bait, all TROUT equal to or greater than the minimum size are counted as part of the daily limit, whether kept or released except: STEELHEAD may be caught and released while using bait until the daily limit is retained. When lures or flies are used voluntarily, fish may be released until the daily limit is retained. If fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

SALMON - Barbless hooks only except barbed hooks may be used while fishing from the Columbia River North Jetty. Only single-pointed hooks and a hand-held rod and line may be used in Areas 1-4. Hand-held line is legal in other saltwater areas.

STURGEON - Single-pointed barbless hooks are required. Lures are not allowed. Annual limit 10.

HALIBUT - Hook and line angling and spearfishing only. A hand-held line is permitted. Only one line with up to two hooks may be used.

BOTTOMFISH, TUNA AND MACKEREL - Hook and line angling, spearfishing and bow and arrow fishing only. Only one line with up to two hooks may be used for BOTTOMFISH. One line with up to three hooks may be used for TUNA and MACKEREL.

BAITFISH - Baitfish jig, dipnet and rake only. Dipnet gear must not exceed 36" across the bag frame. Jig gear may have up to three treble hooks or nine single hooks, not to exceed 3/8" gap between point and shank. While fishing for FOOD FISH in Areas 5-13, a second line using baitfish jig gear may be used to fish for BAITFISH.

Possession Limits

SALMON - Two daily limits of fresh SALMON. An additional 40 pounds of SALMON may be possessed in a frozen or processed form.

TROUT - Two daily limits in any form.

STURGEON - Two daily limits in any form.

BOTTOMFISH - Two daily limits in any form.

HALIBUT - Two daily limits in any form, except only one limit while aboard the fishing vessel.

HERRING AND SMELT - 20 pounds fresh of each species. Additional HERRING and SMELT may be possessed in a frozen or processed form.

TUNA AND MACKEREL - No possession limit.

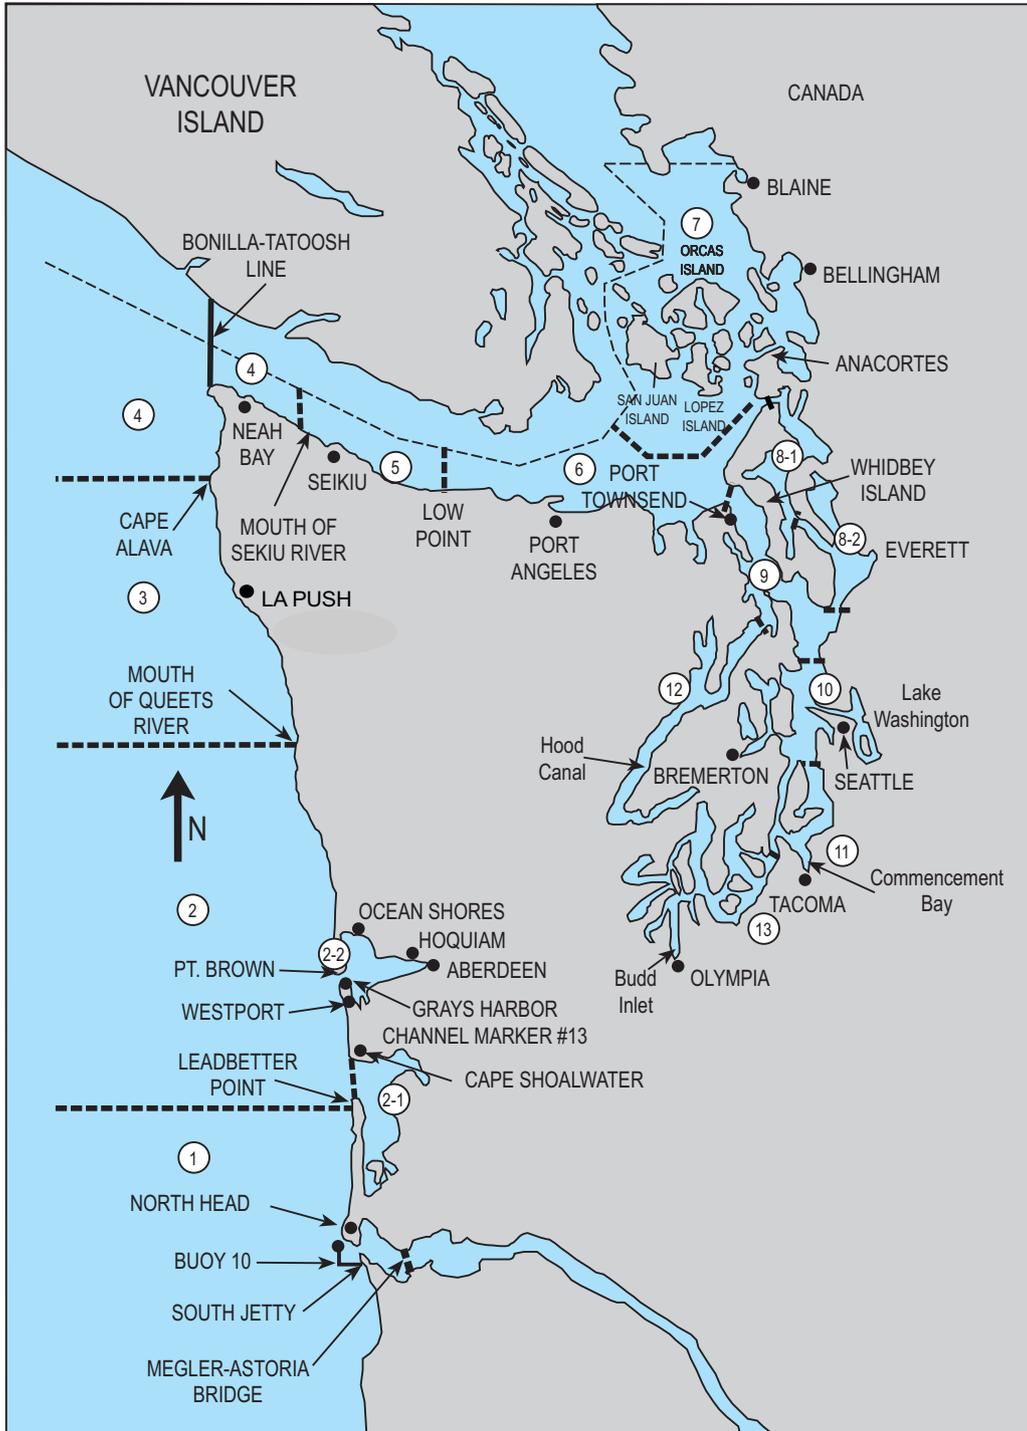

ANCHOVIES, SARDINES AND CANDLEFISH - No possession limit.

SHELLFISH - One daily limit of fresh SHELLFISH. Additional SHELLFISH may be possessed in a frozen or processed form.

Note: The possession limit is the amount of fish or shellfish you may have in your possession while in the field or in transit (see definition, page 8).

Get the Facts on Washington's Sport Fish

Three sportfish identification guides are now available from WDFW. They are spiral-bound on top, and printed on heavy-duty waterproof paper - perfect for use in the field. Guides available are:

Volume 1: Marine Fish (includes Lingcod, Black Rockfish, Copper Rockfish, Kelp Greenling, Pacific Cod, Pile Perch, Quillback Rockfish, Spiny Dogfish, Striped Seaperch, Walleye Pollock, Yelloweye Rockfish), along with rockfish anatomy, a vocabulary list, and Fascinating Fish Facts.

Volume 2: Anadromous Sport Fish (includes Chinook Salmon, Coho Salmon, Cutthroat Trout, Dolly Varden, Eulachon, Pink Salmon, Sockeye Salmon, Steelhead, White Sturgeon), along with salmon anatomy and vocabulary list.

Volume 3: Freshwater Sport Fish (Bluegill, Brook Trout, Brown Bullhead, Brown Trout, Burbot, Channel Catfish, Cutthroat Trout, Kokanee, Lake Trout, Largemouth Bass, Mountain Whitefish, Rainbow Trout, Rock Bass, Smallmouth Bass, Walleye, Yellow Perch) along with fish anatomy and a vocabulary list.

The guides are \$5.00 each, plus tax and shipping. To avoid shipping charges, purchase them directly from WDFW's main office at the Natural Resources Building, 1111 Washington Street, Olympia, WA. For mail orders write to: WDFW Licenses Division, 600 Capital Way North, Olympia, WA 98501-1091. Make checks payable to WDFW, and if you are a Washington resident, add \$.40 sales tax for 1 book, \$.79 for two books, or \$1.19 for three. For more than three books, multiply the total price by 7.9% to compute the sales tax. Shipping is \$1.25 for one to three books, add \$1.25 for every three books or fraction thereof.

Marine Area 13 Map

- ① **Carr Inlet Shrimp District:** Waters of Carr Inlet north of a line projected from Penrose Point to Green Point - CLOSED to fishing for SHRIMP year-round.
- ② **Titlow Beach Marine Preserve:** All waters due west from the southern end of the Tacoma Outboard Association building near the boat launch ramp to the outer harbor line, then south following the outer harbor line to a line due west from the old ferry landing dock at the 6th Ave. extension then following the line to the high water line then to the point of origin. CLOSED to the harvesting of FISH, SHELLFISH, and SEAWEED, except SALMON fishing, using lures only, is permitted from shore or non-motorized craft.
- ③ **Chambers Bay and that portion of Marine Area 13 inside a line from Gordan Point to the dock at Pioneer gravel pit** (second gravel pit approximately 1.2 miles north of Chambers Bay) - CLOSED to fishing for TROUT Nov. 1-May 31.

Shellfish/Seaweed Rules

1 Before Harvesting:

Check the Beach List to determine if a beach is open, or if there are health restrictions.

2 Marine Toxin Levels:

Can change rapidly, call:

**The Marine Toxins-PSP
Department of Health Hotline
1-800-562-5632**

3 Areas Listed on PSP Hotline:

In areas listed as closed on the PSP Hotline, also avoid taking other shellfish which eat clams (such as moon snails or hairy tritons).

4 Rule Change Information:

Conditions may arise which require sudden changes in regulations. These changes will be announced to local news media and included on the Fishing Hotline or the Recreational Shellfish Emergency Hotline (360) 796-3215.

Safe Handling Practices

- Water color does not indicate shellfish safety.
- Rinse your catch in salt (not fresh) water. Quickly cool your catch on ice or in a refrigerator and process as soon as possible.
- Wash all seaweed before eating.
- Cook shellfish adequately before eating. This does not destroy toxins, but can help prevent illness caused by naturally occurring bacteria or bacteria caused by pollution.
- Cooking, rinsing, or freezing does not destroy toxins. Crab can also concentrate toxins in their internal organs. Clean crabs before cooking. Eat only the meat. Eating shellfish with high concentrations of toxins may cause illness or death!

Marine Toxins & Pollution

Shellfish or seaweed may be contaminated from exposure to bacteria, toxins, viruses, or chemicals. Consumption of contaminated shellfish or seaweed can pose a health risk to humans. One potential toxin is Paralytic Shellfish Poisoning (PSP) also called "red tide." PSP becomes a problem when clams, oysters, scallops, mussels, or other shellfish consume and concentrate a microscopic algae which contains a potentially lethal toxin. Symptoms include numbness of the tongue and lips and tingling in the extremities and fingertips. This may be followed by loss of muscular control and difficulty in breathing. Amnesic Shellfish Poisoning (ASP) results when shellfish concentrate a different toxin called domoic acid. Symptoms of ASP include abdominal cramps, diarrhea, vomiting, disorientation, dizziness, and memory loss. If any of these symptoms occur after eating shellfish, get immediate medical attention.

Tideland Ownership

Most Puget Sound and Hood Canal beaches are privately owned. Shellfish/seaweed may not be taken from private beaches without the owner's or lessee's permission. When harvesting from public beaches, remain within the public beach boundaries. Private tideland owners and lessees, and members of their immediate family (grandparents, parents, spouse, siblings, children, and grandchildren) are exempt from personal use daily limits and shellfish licenses when taking clams, oysters, and mussels harvested for their own personal use from their own tidelands. Daily limits apply for all other shellfish, all other people, and all other beaches. Everyone harvesting large quantities of shellfish for commercial purposes needs sanitary shellfish certification from the Department of Health (see RCW 69.30.010(8)). Tideland owners should contact Fish and Wildlife Enforcement for specific rules.

Possession Limit

One daily limit in fresh form. Additional shellfish may be possessed in frozen or processed form.

License

A Personal Use Shellfish/Seaweed License is required for all shellfish (except crawfish) and all seaweed harvest and must be displayed on the outside of clothing during shellfish harvest and transport. See License Requirements, page 7. Everyone claiming a limit must actively participate in the harvesting process, unless they possess a disability permit.

Specific Closures

For all Shellfish Species, see Marine Area maps for closures pertaining to the following areas: San Juan Islands Marine Preserve (Area 7), Edmonds Public Fishing Pier and Edmonds Underwater Marine Park (Area 8-1), Elliot Bay Public Fishing Pier and Eagle Harbor (Area 10), Des Moines Fishing Pier and Les Davis Fishing Pier (Area 11), Sund Rock Marine Preserve (Area 12) and Titlow Beach Marine Preserve (Area 13).

Shellfish Enhancement

Some beaches have increased harvest opportunity as a result of WDFW enhancement activities. Harvest is encouraged within these areas, which are marked with signs attached to yellow posts.

Common Intertidal Shellfish

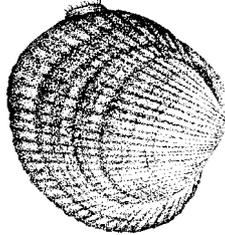

These four species have a 1 1/2" minimum size limit.

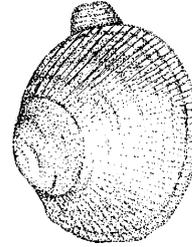

Manila littleneck clam
Tapes philippinarum

Average size is 1-2", up to 2-1/2". Oblong shell has concentric and radiating lines. May have colored, patterned shells.

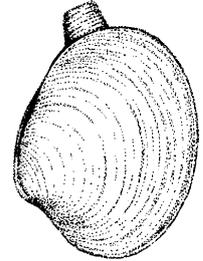

Cockle clam
Clinocardium nuttallii

Prominent, evenly-spaced ridges which fan out from the hinge. Mottled, light brown. Can grow to 5".

Native littleneck clam
Protothaca staminea

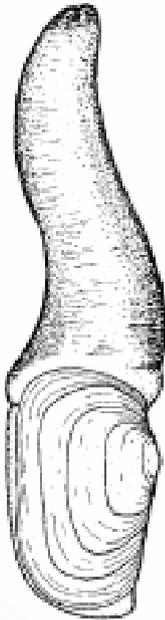

Average size is 1-2", up to 2-1/2". Rounded shell has concentric and radiating lines.

Butter clam
Saxidomus giganteus

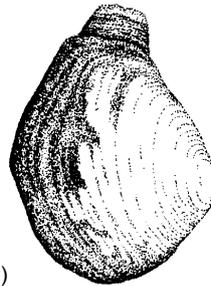

Average size is 3-4", up to 6". Shells are usually chalky-white with no radiating ridges. The siphon can be pulled into its shell.

(Not to scale)

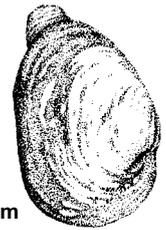

Geoduck clam
Panopea abrupta

Heavy, oblong shell, rounded at one end. Appears cut-off at the other. The siphon can't be retracted. Lives 2-3 feet deep. Can weigh up to 10 lbs.

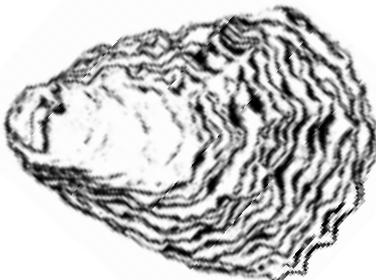

Horse clam
Tresus capax (shown)
Tresus nuttalli (not shown)

Large, can be up to 8". Shell is chalky-white with yellow-brown patches of "skin". The siphon can't be pulled into shell and has a leather-like flap on the tip.

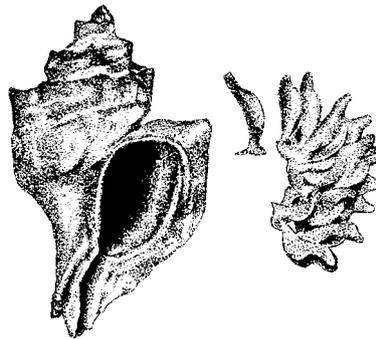

(Eastern) Softshell clam
Mya arenaria

Can grow to 6". Shells are soft, chalky-white with a rough irregular surface. Shell is rounded at the foot end, pointed at the siphon end.

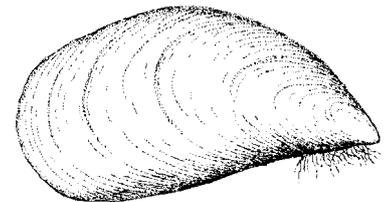

Pacific oyster
Crassostrea gigas

Irregular, chalky-white shell. Often found in groups attached to one another or a solid object.

Oyster drill snail and egg case
Ceratostoma inoatum

The shell is about 1-1/2" with ornate ridges. Egg cases are yellow to reddish. A voracious predator of marine bivalves. Should not be transported from one beach to another.

Mussel
Mytilus trossulus (shown)
Mytilus galloprovincialis (not shown)

Grows to 3-6". Oblong, blue-black or brown shells. Attaches to solid objects by fine threads.

Beach List

The following pages list public beaches with special rules because of resource needs and/or restrictions on harvest due to health concerns. **If a beach is not listed, it is open for recreational harvest year-round unless closed by emergency rule or marine toxins/PSP levels.** Not all public beaches have been evaluated by the State Department of Health, so the health risk of an unlisted beach may not be known. If you have questions about safety on any beach, call the local health department or the State Health Department at (360) 753-5992. In addition, local health departments may have posted beaches within their jurisdiction that are not listed here - look for warning signs. See Marine Area maps for some beach locations.

Pacific Razor Clams *Siliqua patula*

Grows to 6", fragile, thin elongated shells are covered with shiny, tan periostracum (skin). Found only on Pacific coastal beaches.

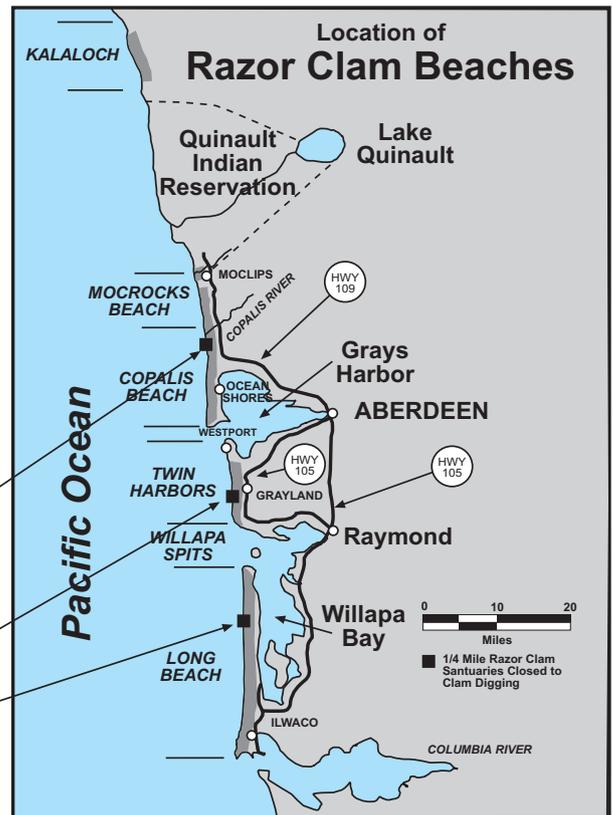

Razor clam sanctuaries (Reserves) are 1/4 mile sections of coastal ocean beaches located on three beach areas that are used to assist in the management of the razor clam resource. The three areas are marked with large metal or wooden posts and are adequately signed to designate a no-digging area. Sampling occurs on a continuing basis for various population studies and comparisons with harvested areas. The three areas are:

PERMANENT RAZOR CLAM RESERVE CLOSURES (Areas marked with posts)

Copalis Beach - from a point 4/10 of a mile south of the Ocean City approach (2nd Ave.) and extending south for 1/4 mile.

Twin Harbors Beach - from the middle of the County Line Road Approach south for 1/4 mile.

PUGET SOUND, ALL OTHER AREAS	ALL SPECIES	2nd Sat. in Apr-Oct. 15	10 lbs.	Whole shrimp in shell.

Spot Shrimp

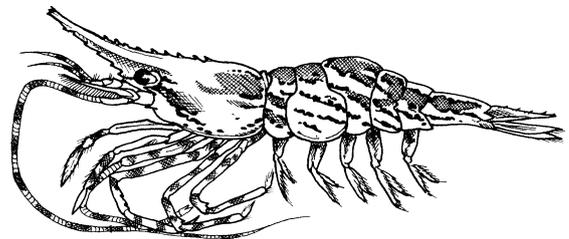

Spot shrimp (*Pandalus platyceros*) are distinguished by four white spots on the body. All Areas, except Hood Canal and the Pacific Ocean, have a 6" minimum size limit, measured from the tip of the rostrum to the end of the tail as shown. Spot shrimp may reach 10" in length.

Pink Shrimp

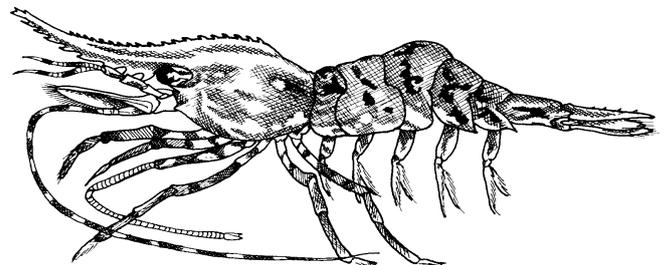

Pink shrimp (*Pandalus eous* and *P. jordani*) are small (less than 6") and uniformly pink.

Coonstripe (Dock) Shrimp

Coonstripe or dock shrimp (*Pandalus danae*) are brownish in color with brown lines and spots on the head and tail. This species may grow to 5-1/2" in length.

Coonstripe (Humpback) Shrimp

The coonstripe or humpback shrimp (*Pandalus hypsinotus*) is mottled reddish-brown with some white patches on the head and tail. This species may reach 7-1/2" in length.

These drawings are by Gae Pilon, as modified from Butler, T. H. 1980 "Shrimp of the Pacific Coast of Canada" Department of Fish and Oceans, Canada.

Statewide Gear Rules - Crab, Shrimp, and Crawfish

Caution

Sportfishing rules for crab, shrimp and crawfish are subject to change based on tribal negotiations. Check the Fishing Hotline or the Recreational Shellfish Emergency Regulations Hotline or watch your local media for potential changes this May.

Fishing for crab and crawfish is open year-round using ring nets, star traps, collection by hand or hand dipnets, scuba, or any hand-operated instrument that will not penetrate the shell. One star trap, one ring net, or one pot is considered one unit of gear. The maximum number of units of gear that may be fished per person is:

Puget Sound except Hood Canal:	Four units, two for crab and two for shrimp
Hood Canal (during shrimp season):	No more than one shrimp pot and a total of two ring nets or star traps for crab
Hood Canal (remainder of year):	Two units of crab gear
Coastal waters:	Two units total
All freshwater areas:	Two units for crawfish

Every shellfish pot, ring net, or star trap left unattended in Washington waters must have a buoy that is permanently and legibly marked with the operator's first name, last name, and permanent address (telephone number is voluntary). When fishing for crab and shrimp in coastal waters, or for crawfish in all areas, the buoy must be marked with the number of shellfish pots attached. Only one name and address may appear on a buoy.

It is illegal to pull an unattended shellfish pot, ring net, or star trap with a buoy that does not have your name on it. Any fisher may assist the person whose name is on the buoy while he or she is pulling the pot.

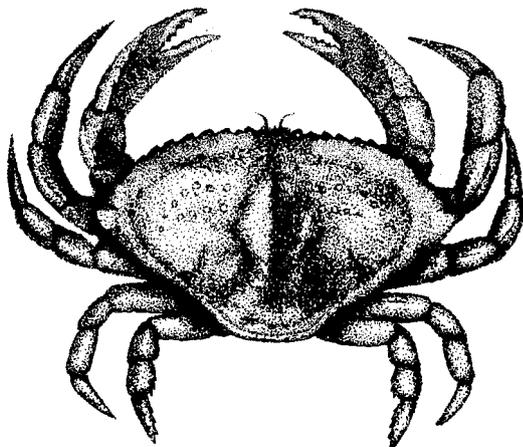

All parts of ring nets and star traps must lie flat on the sea bottom and not restrict free movement of crab until lifted. Shellfish pots must be covered by water at all times while being fished.

All crab, shrimp, and crawfish pots must be equipped with a biodegradable device consisting of either:

- (1) securing the pot lid hook or tiedown strap with a single loop of cord; or
- (2) sewing a 3" by 5" escape panel in the upper half of pot closed with cord; or
- (3) attaching the pot lid or one pot side (serving as a pot lid) with no more than three single loops of cord.

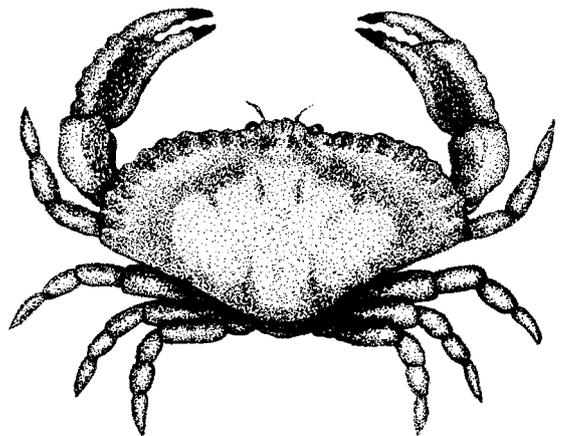

Cord used must be untreated 100% cotton or other natural fiber no larger than thread size 120 or 1/8-inch. This cord, when attached as described above, must be able to rot away and allow crab, shrimp, crawfish, and fish to escape freely if the pot is lost. All areas of Puget Sound except Hood Canal must have two 4-1/4-inch minimum inside diameter escape rings in the upper half of the pot. Hood Canal and coastal areas require two 4-1/8-inch minimum inside diameter escape rings in the upper half of the pot.

Dungeness Crab

White-tipped claws, brownish shell

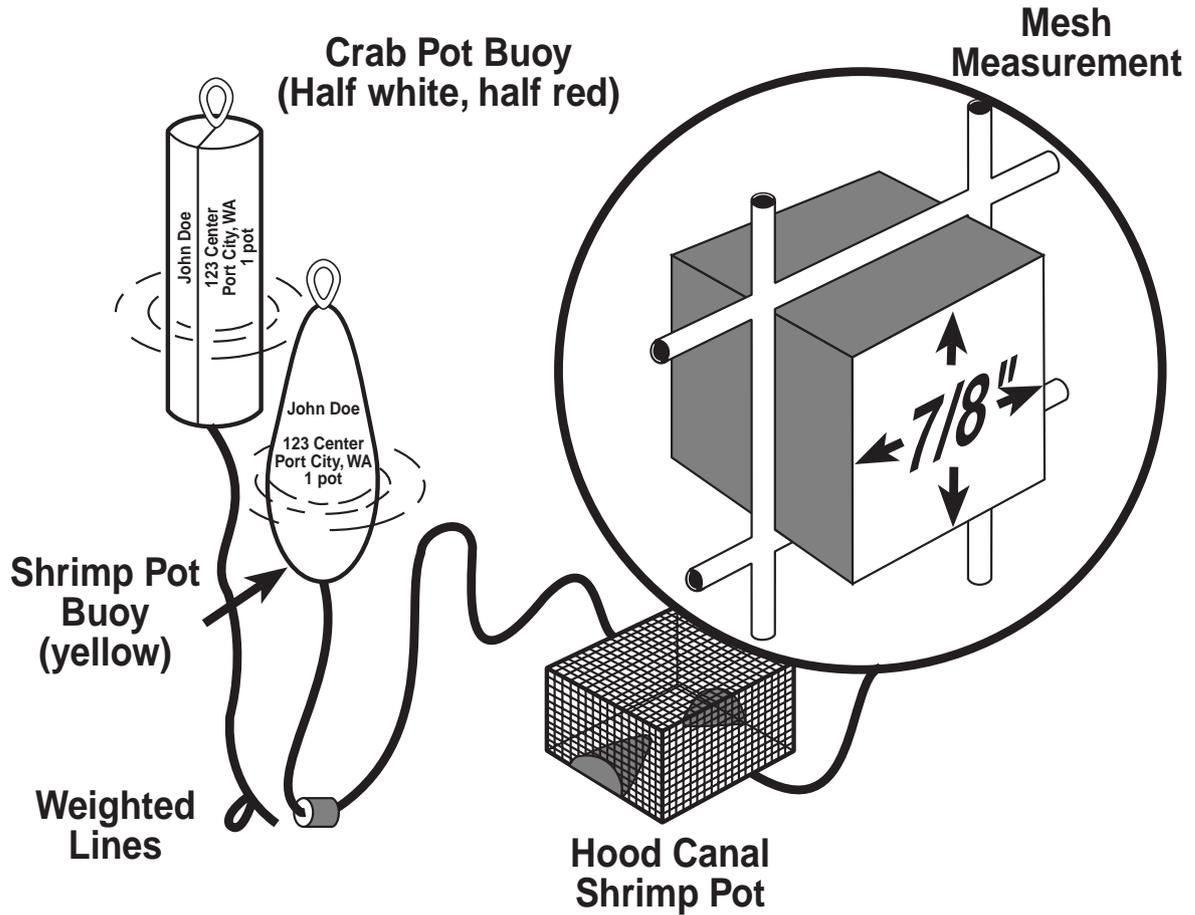

Red Rock Crab

Black-tipped claws, reddish shell, shell much wider than long

Gear Rules for Crab and Shrimp Only

Puget Sound Marine Areas 5-13

Only one unit of gear attached to one line and one buoy. Buoy must be:

- Constructed of durable material (no bleach, antifreeze, or detergent bottles, paint cans, etc.).
- Capable of floating with five pounds of weight attached.
- Attached to the pot with a weighted, not floating, line. Floating line leads to fouled propellers and lost gear.
- Half red and half white for crab (both colors should be displayed when in floating position). Yellow for shrimp.

The personal marker flag and staff, if attached, may be any color. Shrimp pots must not exceed 10' in perimeter and must not exceed 1-1/2' in height.

Hood Canal Marine Area 12

CRAB

Crab pots may be set or pulled from one hour before sunrise to one hour after sunset during the pot season (July 16-Apr. 15).

You may use up to two ring nets or star traps for crab from one hour before sunrise to one hour after sunset, year-round.

LOST GEAR

Do not attempt to salvage lost shellfish gear from Hood Canal without first obtaining a permit from the Department of Fish and Wildlife Enforcement Program. Call (360) 902-2925.

SHRIMP

Shrimp season details to be announced in May.

The operator's name and address on a shrimp pot buoy must appear exactly as it does on the Shellfish/Seaweed license.

SHRIMP POT REQUIREMENTS: Pots must be constructed of mesh material, except for the entrance tunnels, and must allow a 7/8" square peg to pass through each mesh opening (no liners allowed). See the diagram above.

Tunnels must enter from the sides of the pot, and may be made of any size mesh material. The sum of the maximum tunnel widths must not exceed one-half the perimeter of the bottom of the pot.

Statewide Freshwater Rules

How to Use Freshwater Rules

1 Read:

The Statewide General Freshwater Rules. Determine seasons and general rules applying to game fish or food fish you intend to fish.

2 Choose:

The location you are going to fish and check that area for Special Rule listings. Special Rules are divided into four areas: Westside Rivers, Westside Lakes, Eastside Rivers and Eastside lakes. RIVERS lists rivers and streams. LAKES lists lakes, ponds, and reservoirs. All COLUMBIA RIVER special rules are listed in the EASTSIDE RIVERS section. See map below for additional information.

3 If your area is listed in a Special Rules section:

Read Special Rules Instructions on bottom of page 53. If your area is NOT listed in the Special Rules then the Statewide General Freshwater Rules apply.

4 The following terms are used frequently in the Special Rules:

Catch and Release, Chumming, Daily Limit, Fly Fishing Only, Juvenile Only, Landlocked Salmon Rules, Length, Maximum Size, Minimum Size, Night Closure, Non-Buoyant Lure Restriction, Selective Fishery Regulation, Wild Cutthroat Release, Wild Steelhead Release. Definitions can be found on pages 8 and 9.

Statewide General Freshwater Rules

Tackle

Hook and line angling only. Barbed or barbless hooks may be used, and a hook may be single, double, or treble, but not more than one line with up to three hooks per angler.

Single pointed barbless hooks are required in areas designated as "fly fishing only" or "selective fishery rules," and while fishing for STURGEON.

All fishing gear must be kept in immediate control and may not be left unattended while fishing. Rodholders may be used; the rod must be easily removed without delay; rod may be left in holder while playing the fish. Downriggers may be used if the line releases from the downrigger while playing and landing the fish.

A gaff, club, or dipnet may be used to assist landing a legal fish taken by legal gear, except STURGEON may not be gaffed and STEELHEAD may not be gaffed when wild STEELHEAD release is required.

It is unlawful to chum or broadcast any substance to attract game fish, unless specifically authorized by Special Rules.

Where use of bait is prohibited, or where lures or flies are used voluntarily, fish may be caught and released until the daily limit is retained. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

Seasons

The following rules and seasons apply **unless listed otherwise in the Special Rules (page 54-118).**

LAKES, PONDS AND RESERVOIRS not listed in the SPECIAL RULES are open to fishing for GAME FISH (except Dolly Varden/Bull Trout and grass carp) YEAR-ROUND.

RIVERS, STREAMS AND BEAVER PONDS not listed in the SPECIAL RULES are open to fishing for GAME FISH (except Dolly Varden/Bull Trout and grass carp) JUNE 1- OCTOBER 31.

WILD STEELHEAD RELEASE is in effect in all freshwater areas from JUNE 1- NOVEMBER 30, unless specifically exempted in the SPECIAL RULES.

ALL FRESHWATER AREAS not listed in the SPECIAL RULES are open year-round to fishing for STURGEON, COMMON CARP, SHAD AND SMELT and CLOSED to fishing for SALMON, DOLLY VARDEN/BULL TROUT and GRASS CARP.

Note: The possession limit is the amount of fish or shellfish you may have in your possession while in the field or in transit (see definition, page 8).

Sturgeon

STURGEON Catch Record Card required in Grays Harbor and Willapa Bay and Columbia-Snake River drainages, including all tributaries to these systems. Return STURGEON Catch Record Card by January 31st of the following year. **Annual STURGEON limit is 10 fish.**

Single-pointed barbless hooks and bait are required to fish for STURGEON. Immediately release any STURGEON not to be retained. **STURGEON fishing is not allowed at night.**

In the field, it is unlawful to possess any STURGEON from which the head or tail have been removed, and eggs must be retained with carcass of fish from which they came.

TAGGED STURGEON: Do not remove tags from fish not of legal size or that will not be retained, but record: tag number and color, date and location of catch, fish length, your name and address. If fish is retained, remove tag and send with above information to WDFW Columbia River office.

For STURGEON RULES in the Columbia and Snake River tributaries above Bonneville Dam, see rules for adjoining mainstem waters.

Special Rules Instructions

The Special Rules sections list all freshwater areas where the Statewide General Freshwater Rules have been modified.

Statewide rules remain in effect throughout the Special Rules section, unless otherwise specified.

For all game fish and SALMON the Special Rules show all of the fishing opportunity for each area listed.

In the special rules sections **Statewide rules** means the statewide rules apply for minimum size and daily limit. The terms **All Game Fish** and **Other Game Fish** include the Game Fish species on page 9, except DOLLY VARDEN/BULL TROUT and GRASS CARP.

Unless listed otherwise in the Special Rules, freshwater areas are open 24 hours per day when open.

The term TROUT includes: BROWN, CUTTHROAT, RAINBOW, LAKE, GOLDEN and EASTERN BROOK TROUT; KOKANEE; LANDLOCKED ATLANTIC, COHO AND CHINOOK SALMON; AND STEELHEAD.

County references after lakes or streams are there to make it easier to locate the waters listed, or to differentiate between two places with the same name. They do not mean that the rules apply only to the portion of water in that county.

References in the Special Rules to "internal combustion engines prohibited" or "use of motors prohibited" refer to rules you must follow when fishing is your primary activity.

Wild STEELHEAD release June 1-Nov. 30 remains in effect throughout the Special Rules, unless specifically exempted.

For SMELT, COMMON CARP, SHAD, and STURGEON, the Statewide Rules apply unless one of these four species is listed in the Special Rules.

In the Special Rules, all seasons for named lakes in Grant and Adams counties apply to inlet and outlet streams. In Grant, Adams, Franklin, Okanogan and Douglas counties, you may fish up to the base of all man-made dams or other obstructions, (in listed and unlisted areas), except Zosel Dam.

Areas listed as open to fishing are based on abundance, not land ownership. An "open" listing does not authorize anglers to trespass on private property or reservation lands. Please respect reservation boundaries and contact the affected tribe before entering reservation lands or waters.

Catch and Release

Catch-and-release fishing is available to anglers statewide. It is an alternative to more traditional fishing and may play an increasingly important role in our sportfishing future. We encourage you to practice catch and release. It is a way to expand your fishing opportunities and reduce the negative impact you have on our valuable fish resources. If you're fishing without bait, you can catch and release trout in any lake or river (as long as you do not already have a daily limit in your possession). Steelhead may be caught and released whether or not you use bait.

Some fish and shellfish do not lend themselves to catch-and-broken razor clams. These clams will not survive. That is why Many cod and rockfish suffer "the bends" when brought up released with any expectation that they will survive. Their air bladders expand as they are brought to the surface and often damage the fish's internal organs. Once the air bladder expands, the fish cannot return to the deep water and will remain on the surface where they are vulnerable to predators and scavengers.

release fishing. For example, people want to "put back" you must keep the clams you dig and stop at the limit. from the depths at which they live. These fish cannot be

Tips for Releasing Fish

- If the fish is hooked in the throat or has swallowed the bait, cut the line near the fish's snout rather than trying to retrieve the hook.
- Minimize your handling of the fish. In fact, try not to touch the fish, if possible, to avoid wiping off the protective slime.
- If you can, release the fish by grabbing the hook with a pair of pliers and backing the hook out.
- If you must handle the fish, hold it at the base of the tail and support it's belly gently while removing the hook.
- Never throw a fish overboard to release it. Help the fish revive after being caught by gently supporting it in the water. When the fish perks up, let it go.
- Don't play a fish until it is exhausted. Work the fish in quickly so it has remaining energy reserves.

Washington Sportfish Records

CAUGHT A RECORD?

Have you caught a fish that you think might surpass a current state record? Do you know what to do next? The most important step is to get the fish weighed as soon as possible on a certified scale. Obtain the signatures of the scale operator and one other witness to the weighing. Next, take the fish to a Department of Fish and Wildlife office for verification. Application forms with complete instructions are available at all WDFW offices.

Steelhead Management

The thrill of catching a steelhead is a lure that brings anglers from around the world to fish in Washington. Steelhead anglers are known for their tenacity and respect for these seagoing rainbow they treasure so much. In a typical year approximately 100,000 anglers will fish for summer and winter run steelhead in our state.

For this reason, WDFW managers try to allow fishing while still maintaining healthy steelhead populations. However, steelhead populations vary widely. Some rivers support robust runs of naturally spawning steelhead that can support heavy fishing pressure and still have many fish left to spawn. Other rivers have few naturally spawning steelhead, so anglers in these areas must release the natural fish, retaining only hatchery steelhead.

Hatcheries have long been an important part of steelhead management in Washington and have been used to increase the numbers of steelhead available to anglers. Since the 1940's, the hatchery program has emphasized early-returning winter-run fish to expand the time that abundant numbers of steelhead are available for recreational fishing, and to reduce fishing pressure on the naturally spawning fish.

Anglers can identify hatchery steelhead by their missing adipose fin. This fin is a small fleshy appendage located on the fish's back, just ahead of the tail and behind the dorsal fin. Natural (or wild) steelhead have an intact adipose fin, while this fin has been removed on hatchery steelhead.

Wild Steelhead Release

Many anglers are confused about the requirement to release wild steelhead. Many people release all of the wild steelhead they hook as a matter of conservation ethic, even though they are not required to do so by law. See page 9 for a definition of the phrase "wild steelhead release", and page 118 for tips on releasing fish. The wild steelhead release requirement is displayed differently in this pamphlet for the summer-run and winter-run time periods.

Summer-run steelhead - June 1 through November 30

"Wild steelhead release" is required in all state waters, unless an exception is noted in the special rules sections.

Winter-run steelhead - December 1 through May 31

"Wild steelhead release" is only required where noted in the special rules sections.
