### Background summary:

During the 2019 legislative session, the Washington State Legislature passed [Second Substitute House Bill 1579](#), directing the Washington Fish and Wildlife Commission to “adopt rules to liberalize bag limits for bass, walleye, and channel catfish in all anadromous waters of the state in order to reduce the predation risk to salmon smolts.”

This language was passed in part to implement the governor’s task force recommendations meant to increase abundance of Chinook salmon, benefiting the endangered Southern Resident Killer Whale population.

In addition there are several proposals that are needed to clarify, correct, or simplify rules.

# Rule changes to implement Second Substitute House Bill 1579 – Liberalize limits on bass, walleye and channel catfish in anadromous waters.

## Type of Rule Change Proposal

Recreational

## Short Description

This is an act related to implementing recommendations of the southern resident killer whale task force related to increasing Chinook abundance.

HB 1579 Legislation: Section 2. A new section is added to chapter 77.08 RCW to read as follows: The commission shall adopt rules to liberalize bag limits for bass, walleye, and channel catfish in all anadromous waters of the state in order to reduce the predation risk to salmon smolts.

## Explanation

This proposal is implementing Section 2 of 2SHB 1579, which requires the agency to liberalize limits on bass, walleye, and channel catfish in anadromous waters in order to reduce the predation risk to salmon smolts.

## Written Testimony (128 comments as of October 4, 2019)

Support (19):

- Non-native fish contribute to loss of salmon.

Oppose (109):

- Question why focus on all salmon and not just Chinook
- Why eliminate limits and not just increase them
- Think this will not increase salmon
- May increase populations of other predator species
- What is the science to support this (no science, limited science)
- These are economically valuable fisheries that you are destroying
- Should focus on seals & sea lions, bird predation, they are bigger issue
- Remove nets, curtail salmon fishing

# Freshwater Gamefish Rulemaking

## # 1. Apply Beaver Ponds rule statewide

### Type of Rule Change Proposal

Recreational

### Short Description

Applies the rule “Beaver ponds located within or adjoining streams that are listed as open to trout and other gamefish follow same rules as the stream, except as otherwise listed” to the entire state.

### Explanation

Applying this rule statewide was inadvertently overlooked during game fish rule simplification. Changing this rule will clarify and eliminate any confusion that occurs around rules for beaver ponds.

## # 2. Include Kokanee in Statewide Trout Bait Rule

### Type of Rule Change Proposal

Recreational

### Short Description

Adds Kokanee to the species of fish that “When fishing with bait, all trout equal to or greater than the minimum size are counted as part to the daily limit whether kept or released.”

### Explanation

Kokanee as a species were separated from trout during sport rules simplification process. Inadvertently this removed Kokanee from this bait rule. This rule change will include both trout and kokanee in this rule.

## # 3. Remove daily limit of Lake Trout in Lake Chelan

**Type of Rule Change Proposal**

Recreational

**Short Description**

Reverts the rules for Lake Trout back to “No min. size. No Daily limit”.

**Explanation**

During rule simplification trout was standardized to 5 fish daily limit. Lakes with an old and/or unneeded separate trout species rule were changed to the standard rule. However, exceptions to the standard rule were allowed based on relevant data. The old rule for Lake Trout in Lake Chelan was no minimum size or daily limit, but was changed in error to the standard trout rule. The non-native Lake Trout population in Lake Chelan has significant negative impacts on other gamefish species present in the lake, most notably Westslope Cutthroat Trout that are indigenous to the lake. The rule needs to be changed back to “No min. size. No Daily Limit” so that anglers targeting these fish have the opportunity to harvest as many of these fish as possible.

## # 4. Reciprocity rule added to WAC and change to trout rule on Rufus Woods Lake

### Type of Rule Change Proposal

Recreational

### Short Description

Changes the current trout rules from daily limit 2 and minimum size 14" to daily limit 2 and no minimum size to align rules with the Colville Confederated Tribes (CCT) fishing rules.

Also adds the following information to the WAC regarding license reciprocity:

1. A non-member fishing permit issued by the Colville Tribes shall satisfy the license requirement of RCW 77.32.010 on the waters of Lake Rufus Woods and on the north shore of Lake Rufus Woods.
2. A Colville tribal member identification card satisfies the license requirement of RCW 77.32.010 on all waters of Lake Rufus Woods.

### Explanation

During sport fishing rules simplification, a 14" minimum size limit was adopted on Lake Rufus Woods. Staff is recommending the 14" minimum size limit be changed no minimum size to align with the Colville Confederated Tribes rule in the lake (2 fish, no minimum size). This proposal adds language in WAC to clarify the license requirements.

## # 5. Eastern Brook Trout removed from trout daily limit in Patterson Lake (Okanogan County)

### Type of Rule Change Proposal

Recreational

### Short Description

This rule will remove the daily limit for Eastern Brook Trout on Patterson Lake (Okanogan County).

**Explanation**

Eastern Brook Trout are no longer stocked into Patterson Lake, and the lake is currently managed as a mixed species water.

## # 6. Remove Trout and Cutthroat special size restriction on Black Lake (Thurston County)

**Type of Rule Change Proposal**

Recreational

**Short Description**

The current trout rule is "Statewide minimum size/daily limit, except cutthroat trout and wild rainbow trout minimum size 14 inches". This proposal will revert Black Lake rules back to statewide minimum size and daily limits.

**Explanation**

During gamefish rule simplification a 14" minimum size was added to trout rules Black Lake in error.

## # 7. Technical changes

### Type of Rule Change Proposal

Conservation

### Short Description

Corrects Washington Administrative Code language to reflect rule adoptions made by the Commission (technical changes). Formats the language in a clear structure and removes redundant language.

### Explanation

This proposal is a technical fix to provide clearer language reflective of Commission intent, and to streamline the information by reducing redundant language in multiple WACs. See Table.

Number	Issue	Details
1.	Yakima River whitefish clarification.	Remove the words "Open for whitefish only." in the section of the Yakima River: From Roza Dam to 400 feet below Easton Dam; including the portion of Wilson Creek from the mouth upstream to BNSF railroad bridge. <b>WAC 220-312-050</b> . The proposal removes potentially confusing language and clarifies that during the whitefish season (Dec. 1-Last Day of February) other game fish and catch-and-release trout seasons are allowed as well.
2.	Tieton River NF	Clarify the river stretches; No rule change. <b>WAC 220-312-050</b> . This proposal restores river sections that were inadvertently removed from the WAC.
3.	Landlocked Salmon rules in locations with Adipose Clipped Trout Rule Clarification	Landlocked Salmon Rules in Lake Roosevelt and San Poil River have been changed to "Salmon count toward trout daily limit" and "No catch record card required". <b>WAC 220-312-050</b>

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:**  
 Implementation of 2SHB 1579. Eliminates harvest restrictions for bass, walleye, and channel catfish in all rivers, streams and beaver ponds, and in lakes, ponds and reservoirs where these three species may inhabit the same water as salmon smolts.

Implements changes requested by petition to fishing boundaries in the upper Green (Duwamish) River.

Implements changes requested by petition to revert fishing season on the Colville River including Meyers Falls.

Makes adjustments to recreational fishing rules to maximize conservation and recreational-fishing opportunity. This proposal includes changes to other freshwater recreational fishing regulations.

**Reasons supporting proposal:** The changes in this proposal are needed to make necessary adjustments to recreational fishing rules based on department data, public feedback, and the desire of the department to reduce complexity of the sport rules as reflected in the annual pamphlet. The department also proposes amendments for conservation purposes and to provide greater fishing opportunity. Technical changes are needed to ensure accuracy, clarity, and uniformity in the code

(1) It is unlawful to fish for, take, or possess salmon from freshwater streams and lakes that are not specifically listed as open for salmon fishing.

(2) Waters listed as open during a specific date range that do not reference a particular species are open during the date range for game fish only.

(3) All limits are daily limits, unless otherwise provided.

(4) (~~Within Puget Sound,~~) Beaver ponds located within or adjoining streams that are listed as open to trout and other game fish follow the same rules as the stream, except as otherwise provided.

(6) A "float" or "bobber" means a hookless, floating device that is attached to or slides along the mainline or leader above the hook(s) for the purpose of suspending hook(s) (which are not part of the bait, lure, or fly) off the bottom of the stream or lake and visually signal (from the surface of the water) a fish's strike at the hook(s).

(7) "Lead jig" means a lure consisting of a hook permanently or temporarily attached directly to a lead weight by any method.

(8) "Lead weight" means material constructed of lead and applied to a fishing line or lure and designed to help keep the hook, bait, or lure underwater.
