## Fish and Wildlife Commission Presentation Summary Sheet

---

**Meeting date:**

March 18, 2022

**Agenda item:**

Spring Bear – Decision

**Presenter(s):**

Stephanie Simek, Ph.D. Carnivore, Furbearer, Small Game Section Manager, Wildlife Program

---

**Background summary:**

Department staff briefed the Commission on proposed rule amendments to WAC 220-415-080 2021 Spring black bear special permits.

*Purpose of the proposal and its anticipated effects:*

The proposed rule amendments, if adopted, would put in place an annual spring black bear special permit hunt season and would fulfill WDFW's mandate to maximize the public recreational hunting opportunities while also conserving the wildlife resources in a manner that does not impair the resource. These annual hunts would make available a limited number of permits in specific areas, as compared to the general fall black bear season. These hunts, if the proposal is adopted, also would use harvest as a tool to apply additional hunting pressure and human presence in an effort to help address (or provide ancillary benefit to) other management issues such as commercial timber damage and reduce bear densities in areas of high negative human-bear interactions or where ungulate neonate survival is low.

*The proposed changes:*

- 1) Striking 2021 in the title and adjusting the season dates to May 1 - June 15;
- 2) Modifying permit numbers in an area where needed, reducing the number of permits in Hunt Unit 684 (Long Beach) from 10 permits to 6 permits;
- 3) Adding a provision to prohibit the harvest/take of female black bear accompanied by offspring and prohibiting the harvest of offspring and defining offspring as less than one year old or less than 50 pounds.
- 4) Under Harvest check, submitting biological samples and bear teeth,
  - (a) Replace the title of this subsection with the following:

Harvest check and inspection (collection of biological samples);

(b) Add language under the Harvest check and inspection subsection:

All successful bear hunters must validate (notch) their bear tag consistent with WAC 220-413-020, notify the department within 72 hours of kill (excluding legal state holidays), provide the hunter's name, date and location of kill, and sex of animal. The unfrozen raw pelt, with evidence of sex attached, and the first premolar must be presented to an authorized department employee for inspection within five days of notification of kill. All permit hunters must comply with harvest reporting and submission of biological samples as described above. Failure to comply with harvest reporting and submission of biological samples is a misdemeanor pursuant to RCW 77.15.280.

Replace the text above with the following:

All successful bear hunters must validate (notch) their bear tag consistent with WAC 220-413-020. All successful bear hunters must notify the department within 72 hours of harvest (excluding legal state holidays) and schedule their harvest inspection. The unfrozen raw pelt, with evidence of sex and skull attached must be presented to an authorized department employee for inspection within five days of notification of kill. All permit hunters must comply with harvest reporting and inspection as described above. Failure to comply is a misdemeanor pursuant to RCW 77.15.280.

*Reasons supporting proposal:*

- 1) Date changes: On January 21, the Fish and Wildlife Commission voted in response to a rule making petition to initiate rulemaking to amend WAC 220-415-080 with a proposal to remove from the title the year "2021." If the proposed rule is adopted, WDFW would be carrying forward a long-standing spring recreational hunting opportunity of black bears on an annual basis. A central part of WDFW's legislative mandate is to provide sustainable recreational hunting opportunity. Spring bear special permit hunts are one of a very limited number of spring hunting opportunities and there is very strong interest from hunters for the limited spring bear hunting permits. Washington State black bear population is robust and an annual spring hunt with approximately 664 permits is sustainable. The April 15 to May 1 proposed change would accommodate WDFW staff's administrative need for additional time to implement the distribution of permits in spring 2022 if the proposal is adopted.
- 2) Permit numbers in GMU 684: The reason for the proposed amendment to the hunt in unit area 684 is human safety. The hunt is implemented to discourage human-bear conflicts by providing hunting pressure. Due to the difficulties in finding bear hunting access and to avoid overcrowding in those limited areas where hunting was allowed, a reduction in permit numbers in unit area 684 is needed. Based on harvest records, the proposed change is unlikely to impact the resulting harvest.
- 3) Take prohibition: Adding the provision to prohibit harvest/take of female bears with offspring and offspring less than one year old or under 50 lbs. will align Washington with other western states and provinces that offer spring bear hunts. While challenging to enforce, previous public input expressed a sentiment of concern about orphaning cubs. The definition of offspring is intended clearly identify the conditions by which an animal is considered an offspring.

4) Hunter check and inspection: WDFW has proposed edits to clarify the requirements for the harvest check and inspection in the WAC, which if adopted would provide specificity as to how and when such pelt and head inspections would occur.

(a) The heading change identifies the components required of the hunter, which are harvest check and carcass inspection,

(b) The additional language related to the animal inspection is intended to direct hunters that the pelt and head must be unfrozen and that the evidence of sex and head must be attached. The revised language further directs hunters that they must call within 72 hours to schedule the inspection of the animal for collection of tooth and biological information.

**Staff recommendation:**

Recommend adoption of the rules as presented by Department staff.

**Policy issue(s) and expected outcome:**

The changes to the rules above were discussed in the March FWC meeting.

**Fiscal impacts of agency implementation:**

None.

**Public involvement process used and what you learned:**

On February 1, 2022, WDFW filed a CR-102, initiating public comment. The public was asked to provide input on the proposed changes to WAC 220-415-080 via the department's website. The department has emailed over 40,000 subscribers notifying them of the website survey and encouraging them to participate. Also, the department issued a news release and postings on social media.

Notification was made to individuals and organizations informing them of the opportunity to provide comments on the proposed regulation amendments. At the March 11, 2022, commission meeting online, the Commission and Department staff held public comments.

Please see the associated public comment form.

**Action requested and/or proposed next steps:**

Recommend adoption of the rules as presented by Department staff.

**Draft motion language:**

Motion: I move to adopt the recommended rule changes as presented by Department staff.

Is there a "second"?

If so, then motion maker discusses basis for the motion; other Commissioners discuss views on motion, amendments, if any, proposed and addressed.

**Post decision communications plan:**

Washington Department of Fish and Wildlife Website

# Hunting Regulation Pamphlet

*Form revised 1-20-21*

## **Summary of Public Comments Received During the Official Comment Period and WDFW Response: (Note: one WAC per page)**

### WAC 220-415-080

The Department received public comment through online survey, form letters sent to the Commission, emails, emails with letters attached, paper surveys, voicemail, and public comment submissions for the Commission briefing. In total over 26,000 comments were received. The comments represented both those in favor and those oppose to the rule. A subset of submissions offered alternative language for different segments of the rule. There were numerous comments that made statements unrelated to the rule. Many of the online comments were form letter submissions. Additionally, there were several occasions where multiple submissions were made by a single individual (e.g., over 500 submissions by one person). Some commenters further outlined concerns regarding the process, policy, the scientific data, intent of the Game Management Plan, value of hunting, and opposition to hunting.

Common themes of those in support included:

- Family experience, traditions, and heritage
- Benefit to wildlife (bears and other wildlife)
- Sustainable, robust population, science supports it
- North American model of Wildlife Conservation
- Provides food for families
- Limited and regulated hunt
- General support

Common themes of those opposed included:

- Oppose bear hunting
- Oppose all hunting
- Cub mortality/lethargic bears
- No/lack science to support the hunt
- No spring hunting
- Trophy hunts/unethical
- General opposition

Additional comments included:

- Move to general, over-the-counter tag
- Allow recreationists to enjoy the spring

- Concern over environmental factors: climate change, habitat changes, fire
- Concern for losing hunting heritage
- Follow commission and department mandate
- Concern regarding the removal of the year from the title
- Concerns over the process
- Concerns over the lack of understanding wildlife management
- Timber damage
- Human-bear conflict

Other notes: many commenters expressed issues regarding methods that are not authorized in Washington such as hunting with dogs and use of bait. Others referenced allowing hunting in identified “bear sanctuaries” and “refuges”; which Washington does not have any designated bear sanctuaries or refuges.

AMENDATORY SECTION (Amending WSR 21-02-015, filed 12/28/20, effective 1/28/21)

**WAC 220-415-080 ((2021)) Spring black bear special permits.** It is unlawful to fail to comply with the provisions of this section. A violation of this section is punishable under RCW 77.15.410, 77.15.245, or 77.15.280, depending on the circumstances of the violation.

**Who May Apply:** Anyone with a valid Washington big game license, which includes black bear as a species option.

**Hunt Areas, Permit Levels, and Season Dates for Each License Year:**

Hunt Name	Hunt Area	Permits	Season Dates
Sherman	GMU 101 Note: Mandatory bear identification test required.	50	(( <del>April 15</del> )) <u>May 1</u> - June 15
Kelly Hill	GMU 105 Note: Mandatory bear identification test required.	50	(( <del>April 15</del> )) <u>May 1</u> - June 15
Douglas	GMU 108 Note: Mandatory bear identification test required.	40	(( <del>April 15</del> )) <u>May 1</u> - June 15
Aladdin	GMU 111 Note: Mandatory bear identification test required.	50	(( <del>April 15</del> )) <u>May 1</u> - June 15
49 Degrees North	GMU 117 Note: Mandatory bear identification test required.	100	(( <del>April 15</del> )) <u>May 1</u> - June 15
Huckleberry	GMU 121	100	(( <del>April 15</del> )) <u>May 1</u> - June 15
Blue Creek	GMU 154	18	(( <del>April 15</del> )) <u>May 1</u> - June 15
Dayton	GMU 162	18	(( <del>April 15</del> )) <u>May 1</u> - June 15
Tucannon	GMU 166	5	(( <del>April 15</del> )) <u>May 1</u> - June 15
Wenaha	GMU 169	60	(( <del>April 15</del> ))

Hunt Name	Hunt Area	Permits	Season Dates
			<u>May 1</u> - June 15
Mt. View	GMU 172	24	(( <del>April 15</del> )) <u>May 1</u> - June 15
Lick Creek	GMU 175	18	(( <del>April 15</del> )) <u>May 1</u> - June 15
Peola	GMU 178	5	(( <del>April 15</del> )) <u>May 1</u> - June 15
Couse	GMU 181	5	(( <del>April 15</del> )) <u>May 1</u> - June 15

Kitsap	GMU 627	5	(( <del>April 15</del> )) <u>May 1</u> - June 15
Mason	GMU 633	5	(( <del>April 15</del> )) <u>May 1</u> - June 15
Bear River	GMU 681	20	(( <del>April 15</del> )) <u>May 1</u> - June 15
Long Beach	GMU 684	(( <del>40</del> )) <u>6</u>	(( <del>April 15</del> )) <u>May 1</u> - June 15
North Skagit	That portion of GMU 418 that is designated as the hunt area by DNR, Sierra Pacific, and Grandy Lake Timber company. Note: Mandatory bear identification test required.	30	(( <del>April 15</del> )) <u>May 1</u> - June 15
Copalis	GMU 642, 648, and 638 (excluding U.S. Forest Service lands).	50	(( <del>April 15</del> )) <u>May 1</u> - June 15

**Bag Limit:** One black bear per black bear special permit season.

**License Required:** A valid big game hunting license, which includes black bear as a species option, is required to apply for a spring black bear special permit. One black bear transport tag is included with a big game hunting license that has black bear as a species option.

**Hunting Method:** Hunters may use any lawful big game modern firearm, archery, or muzzleloader equipment for hunting black bear. The use of dogs or bait to hunt black bear is prohibited statewide.

**Female black bear with offspring:** It is unlawful to harvest/take a female black bear accompanied by one or more offspring or harvest/take offspring. Offspring are defined as less than one year old or less than 50 pounds.

**Other Requirements:** Hunters that are selected to hunt in GMUs located in grizzly bear recovery areas, as identified by the department, must successfully complete the annual WDFW online bear identification test with a passing score (80% or higher) or carry proof that they have passed an equivalent test from another state. The WDFW test may be taken repeatedly until a passing score is achieved. All hunters must carry proof of passing a bear identification test while hunting in the GMUs identified by the department.

**Harvest Check**~~((, Submitting Biological Samples and Bear Teeth))~~ **and**

**Inspection (collection of biological samples):** All successful bear hunters must validate (notch) their bear tag consistent with WAC 220-413-020((7)). All successful bear hunters must notify the department within 72 hours of kill (excluding legal state holidays)~~((, provide the hunter's name, date and location of kill, and sex of animal))~~ **and** schedule their inspection. The unfrozen raw pelt, with evidence of sex and skull attached~~((, and the first premolar))~~ must be presented to an authorized department employee for inspection within ((5)) **five** days

of notification of kill. All permit hunters must comply with harvest reporting and (~~(submission of biological samples)~~) inspection as described above. Failure to comply (~~(with the submission of biological samples)~~) is a misdemeanor pursuant to RCW 77.15.280.

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The purpose of the proposed amendments to WAC 220-415-080, currently titled "2021 Spring black bear special permits", is to carry forward a long-standing spring recreational hunting opportunity of black bears on an annual basis. If the proposed amendments are adopted, WDFW would issue a limited number of spring bear special hunting permits each year for geographically focused spring hunting of black bear, that can in some instances help address other management issues such as human-bear conflict, commercial timber damage or concerns for ungulate species neonate recruitment. WDFW is proposing to remove the year from the title of WAC 220-415-080, and to add a stipulation prohibiting harvest of female black bears with offspring and prohibiting the harvest of offspring. Offspring would be defined as less than one year old or less than 50 pounds. The proposed amendments also include minor modifications to harvest and inspection procedures. The anticipated effect of the proposed amendments, if approved, would be a limited, annual hunting opportunity for approximately 664 hunters who receive permits, and WDFW anticipates approximately 145 black bears would be harvested annually through this limited permit hunting opportunity.

**Reasons supporting proposal:** On January 21, the Fish and Wildlife Commission voted in response to a rule making petition to initiate rulemaking to amend WAC 220-415-080 with a proposal to remove from the title the year "2021." A central part of WDFW's legislative mandate is to provide sustainable recreational hunting opportunity. Spring bear special permit hunts are one of a very limited number of spring hunting opportunities and there is very strong interest from hunters for the limited spring bear hunting permits. Washington State black bear population is robust and an annual spring hunt with approximately 664 permits is sustainable. WDFW is proposing a reduction in permit numbers for hunt unit 684 (from 10 to 6 compared to 2021) in order to reduce crowding on the limited accessible areas of mostly private land. Removing the year from the title would minimize the need for annual rulemaking unless hunt areas or permit levels need adjustment. The addition of a prohibition on the harvest of offspring and females with offspring would minimize the potential of orphaning cubs. The edits to the language related to animal inspection would clarify to hunters the components necessary for harvest check and inspection. The proposed revisions clearly state that the pelt and head must be unfrozen and that evidence of sex and the head must be attached to the pelt. Further the proposed edits would assist WDFW staff's implementation of the rule by adding a requirement that a successful hunter schedule an inspection with WDFW staff within 72 hours of the harvest.

**Statutory authority for adoption:** RCWs 77.04.012, 77.04.055, 77.12.047.

**Statute being implemented:** RCWs 77.04.012, 77.04.055, and 77.12.047.

This rule proposal, or portions of the proposal, is exempt under RCW [19.85.025 (4)].

Explanation of exemptions, if necessary: [The proposed rule is for recreational hunting opportunity and does not affect small businesses.]

**COMPLETE THIS SECTION ONLY IF NO EXEMPTION APPLIES**

If the proposed rule is **not exempt**, does it impose more-than-minor costs (as defined by RCW 19.85.020(2)) on businesses?

No Briefly summarize the agency's analysis showing how costs were calculated. [ ]

Yes Calculations show the rule proposal likely imposes more-than-minor cost to businesses, and a small business economic impact statement is required. Insert statement here:
