RE: 202300821, 23-008

Dear Lucila Cornejo:

Thank you for your comments on the Determination of Non Significance for the Klickitat Wildlife Area – Simcoe Mountains Unit Boundary/Interior Fence, SEPA 23-008.

The Washington Department of Fish and Wildlife (WDFW) is aware of the need to ensure stormwater does not negatively impact waters of the state. For this project streams are largely avoided, ground disturbing impacts will be minimal and BMPs will be used to avoid impacts to streams and other live water.

Any additional comments or questions can be directed to me.

Sincerely,

Doug Wiedemeier
