

2015 Agency Request Legislative Proposals

Fish & Wildlife Commission Meeting

August 9, 2014

Ann Larson, Legislative Liaison

2015 Proposal Timeline

- May 9 – submit draft proposals
- May 14 – Director's Office review
- June 16 – EMT review
- **August 9 – FWC review**
- August 15 – FWC approval
- September 19 – submit to OFM/GOV
(with fiscal impacts)
- October 1– submit to OFM/GOV
(without fiscal impacts)

Context for the 2015 Session

- Biennial budget year
- Election year
 - All 98 House and 24 of 49 Senate seats up
 - Anticipated divided government
- 105-day long session
- Special Session(s) expected

2015 Agency-Request Summary

1. Recreational Fishing License Fees*
2. Commercial Fishing License Fees
3. Shellfish Excise Tax
4. Aquatic Invasive Species
5. PILT
6. Fishing Charter Guides
7. Hunting under the Influence

License Fees - Placeholders

- ⦿ Recreational Fishing License Fees*
- ⦿ Commercial Fishing License Fees

*May include minor changes to hunter fees to increase hunter participation and recruitment.

Shellfish Excise Tax

Problem:

- ⦿ Increasing black market for shellfish
- ⦿ Enforcement is inadequately funded
- ⦿ Increased public health risk
- ⦿ Negative impacts to \$270 million shellfish industry with +3200 jobs

Shellfish Excise Tax

Proposed Solution:

- ⦿ Eliminate shellfish aquaculture tax exemption
- ⦿ Establish a new rate that is levied at 1% taxable value

Aquatic Invasive Species

Problem:

- AIS threaten WA's environment and economy
- Preventing AIS avoids large costs to WA ecosystem and resource-based industry
- Current funding levels are inadequate for key prevention activities

Aquatic Invasive Species

Proposed Solution:

- Provide adequate funding to implement prevention activities via:
 - 4% Motor Vessel Excise tax redirection
 - AIS voluntary donation
 - Commercial shipping vessel fee

PILT

Problem:

- Multiple methods for calculating PILT
- PILT payments have been frozen to 2009 levels
- Frustration by counties has led to lack of support for DFW land acquisitions
- Governor directed agencies to review and revise the program.

PILT

Proposed Solution:

- Use a single calculation of PILT
- Remove 2009 level freeze
- Remove requirement for counties to choose between fees, fines and forfeitures or PILT

Charter Fishing Guides

Problem:

- Some charter boat operators and guides are intentionally reissuing used stamps
- Current statute does not criminalize this fraudulent behavior
- Thousands of dollars of fishing revenue are being stolen.

Charter Fishing Guides

Proposed Solution:

- Discourage charter boat operators and guides from reissuing stamps by making it a crime.

Hunting Under the Influence

Problem:

- ⦿ HUI is a high risk to public safety
- ⦿ Current HUI law is difficult to enforce
- ⦿ The crime of HUI does not carry a mandatory suspension of hunting privileges

Hunting Under the Influence

Proposed Solution:

- Increase clarity of the offense
- Apply implied consent to a breath test
- Mirror BUI and DUI laws
- Impose a mandatory suspension of hunting privileges for
 - 2 years for first-time offense
 - 10 years if the person has previous convictions
