Summary

Meeting dates: April 9- 10, 2015

Agenda item: Elk General Hunting Seasons and Elk Special Permit Seasons

Presenter: Jerry Nelson, Ph.D., Deer and Elk Section Manager, Wildlife Program

Background summary:

Staff will propose amendments to WAC 232-28-358 2015-2017 Elk General Seasons and Definitions; and WAC 232-28-360 2015 Elk Special Permits.

- Proposal shifts the early archery elk season to a more favorable time frame. Proposed start date would be the Saturday after Labor Day and running for 13 days as it has in the past.
 - Recommendation expands the number of GMUs open to early muzzleloader elk hunting. Proposal recommends opening more GMUs to early muzzleloader that are already open to modern firearm and archery hunters.
 - The recommendation shifts GMU 524 Margaret from a special permit only season to a general season. Proposal also includes creating a new elk area, Norway Pass, within GMU 524 to provide Quality special permit hunting opportunity on accessible public land.
 - Recommendation adjusts special permit levels in response to opportunity available and address wildlife conflict when practical.
-

Policy issue(s) you are bringing to the Commission for consideration:

- Maximizing recreational hunting opportunity.
 - Continue sustainable hunting seasons for elk.
 - Managing wildlife conflict issues utilizing hunters.
-

Public involvement process used and what you learned:

The Department conducted an extensive public involvement process to develop the 2015-2017 hunting season recommendations. This summer, two online issue scoping surveys were made available to the public. The first survey laid out major issues of concern. The second survey was a follow-up based on the public response received from the first survey. The department also held six public meetings, three on each side of the state. Both the surveys and the meetings were publicized via news release, WDFW's website and an email to hunters from the last five years. Also, a request for comment was sent to over 9000 individuals and organizations through the rulemaking process. Additionally, these individuals and organizations were informed of the opportunity to provide verbal testimony at the March 20-21, 2015 Commission Meeting in Moses Lake.

Action requested:

Amend WAC 232-28-358 and 232-28-360 as proposed.

Draft motion language:

I move to amend WAC 232-28-358 and 232-28-360 as proposed.

Justification for Commission action:

- To provide opportunities to hunters, consistent with achieving management objectives.
 - To address and prevent wildlife conflict problems.

AMENDATORY SECTION (Amending WSR 14-10-019, filed 4/25/14, effective 5/26/14)

WAC 232-28-358 ((2012-2014)) 2015-2017 Elk general seasons and

definitions. It is unlawful to fail to comply with bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410, Unlawful hunting of big game—Penalty.

Bag Limit: One (1) elk per hunter during the license year, except where otherwise permitted by department rule. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods: Modern firearm, archery, or muzzleloader.

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers; bull calves are illegal.

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike-only game management units (GMUs) must have at least one antler with no branches originating more than 4 inches above where the antler attaches to the skull.

Spike-only GMUs: 145-154, 162-186, 249, and 336-368.

True Spike - Bull Antler Restrictions: Neither antler of bull elk taken in GMUs 251, and 328-335 can have branching originating more than 4 inches above where the antlers attach to the skull. Under the true-spike restriction, taking an elk that has two points on one side or antler points within one inch of the definitions regarding length of point, or point of origination, is an infraction under RCW 77.15.160. All other types of violations of the true-spike restriction are subject to current penalties and assessments under RCW 77.15.410 and 77.15.420.

True-spike GMUs: 251, 328-335.

3-point Antler Restrictions: Legal bull elk must have at least 3 antler points on one side, with at least 2 antler points above the ear.

Eye guards are antler points when they are at least one inch long.

Antler restrictions apply to all hunters during any open season.

3-point GMUs: All of Western Washington, except for GMUs 448, 454, 564, 652 for archers, 666, 684, and Elk Area 4941.

Permit-only Units: The following GMUs are closed to elk hunting during general elk seasons: 157, 371, 418, 485, 522, ((~~524~~)) 556, 621, 636, and 653.

GMUs Closed to Elk Hunting: 437 (except for Elk Area 4941) and 490.

Areas with Special Restrictions: There are modern firearm restrictions in GMU 334 and portions of GMU 660. GMU 554 is open only for early archery and muzzleloader seasons. Elk Area 6064 in GMU 638 (Quinault) is open to master hunters only.

Elk Tag Areas

Eastern Washington: All 100, 200, and 300 GMUs.

EA - Eastern Washington Archery Tag

EF - Eastern Washington Modern Firearm General Elk Tag

EM - Eastern Washington Muzzleloader Tag

Western Washington: All 400, 500, and 600 GMUs.

WA - Western Washington Archery Tag

WF - Western Washington Modern Firearm General Elk Tag

WM - Western Washington Muzzleloader Tag

Modern Firearm General Elk Seasons

License Required: A valid big game hunting license with an elk tag option.

Tag Required: A valid modern firearm elk tag as listed below for the area hunted.

Hunting Method: May use modern firearm, bow and arrow, crossbow, or muzzleloader, but only during modern firearm seasons.

AMENDATORY SECTION (Amending WSR 14-10-019, filed 4/25/14, effective 5/26/14)

WAC 232-28-360 ((2014)) 2015 Elk special permits. It is unlawful to fail to comply with the bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410, Unlawful hunting of big game—Penalty.

Special Elk Permit Hunting Seasons (Open to Permit Holders Only)

Hunters must purchase an elk hunting license prior to purchasing a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for Eastern or Western Washington archery, muzzle-loader, or modern firearm permit hunts. Applicants must have purchased the proper tag for these hunts. The elk tag prefixes required to apply for each hunt are shown in the following table. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "**Any tag**" under the "**Weapon/Tag**" restriction must use equipment consistent with the requirements of their transport tag and license.

** May only hunt on privately owned lands. Must use only archery or legal shotgun (10 or 12 gauge; slugs only).

^{HC} This is a damage hunt administered by a WDFW designated hunt coordinator. Successful applicants will be contacted on an as-needed basis to help with specific sites of elk damage on designated landowner's property. Not all successful applicants will be contacted in any given year, depending on elk damage activity for that year.

Hunter Education Instructor Incentive Permits				
<ul style="list-style-type: none"> - Special elk permits will be allocated through a random drawing to those hunter education instructors who qualify. - Permit hunters must use archery equipment during archery seasons, muzzleloader equipment or archery equipment during muzzleloader seasons, and any legal weapon during modern firearm seasons. Hunter orange is required during modern firearm seasons. - Except for online class incentive permits and chief instructor incentive permits, qualifying hunter education instructors must be certified and have been in active status for a minimum of three consecutive years, inclusive of the year prior to the permit drawing. ((- Instructors who are drawn, accept a permit denoted with (*) below, and are able to participate in the hunt, will not be eligible for those specific incentive permits for a period of ten years thereafter.)) - Permittees may purchase a second license for use with the permit hunt only. - Qualified hunter education instructors may only receive one incentive permit each year.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Page 6

- Propose the removal of the general season for Elk Area 2033. This hunt was originally designed to address agricultural damage concerns. Those damage issues are now being effectively mitigated by Wildlife Conflict staff.
- Substitute new language for the Master Hunter (MH) 3911 hunt footnote. This proposal facilitates the lower pricing proposal for MH 2nd tags and clarifies rule differences between the early and late 3911 hunts.

Page 7

- Add an exception to the newly proposed general season in GMU 524. This exception will facilitate Quality special permit hunts in the newly proposed Norway Pass Elk Area.

Page 8

- Add an exception to the newly proposed general season in GMU 524. This exception will facilitate Quality special permit hunts in the newly proposed Norway Pass Elk Area.
- Update the January dates for Late Archery, Elk Area 1010 and GMU 163. This corrects an oversight in the filing.
- Update the January dates for Late Archery, GMU 371 and Elk Area 3912. This corrects an oversight in the filing.

- Insert early muzzleloader dates for GMU 407 and Elk Area 4601 for years 2015 and 2016. This corrects a holdover omission from the last 3-year package.
- Reinstate the start dates for late muzzleloader for GMUs 130-142. This corrects a miscommunication between headquarters and the region.

WAC 232-12-078 Baiting for the purposes of hunting deer or elk

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk for all hunters.

Reasons supporting proposal:

In the last two years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process.

The non-random input the Department received via the website indicated that 23% of hunters wanted a ban on baiting with an exception for food plots and agricultural operations. Fourteen percent (14%) of hunters wanted to disallow the use of bait by hunting guides and restrict the manner and volume of baiting by hunters not using guides. A 63% majority of the hunters commenting wanted no change to the rules pertaining to baiting deer and elk.

In a random telephone survey of deer hunters, 59% either opposed or strongly opposed baiting for deer. Deer hunters that strongly supported or supported baiting for deer made up 21% of the respondents. Eleven percent (11%) of those surveyed were neutral and 9% didn't know.

In the same random telephone survey, 68% of elk hunters either opposed or strongly opposed baiting for elk. Elk hunters that supported or strongly supported using bait to hunt elk were 14%. Eleven percent (11%) of those surveyed were neutral and 8% didn't know.

Although some potential exists, the Department has no data at this time to suggest that the practice of baiting for deer and elk hunting has a negative population or natural resource effect. Therefore it is a social issue that the Fish and Wildlife Commission will address.

232-12-079 Bait volume limits for the purposes of hunting deer or elk

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk if the bait volume exceeded 10 gallons (1.34 cubic feet).

Reasons supporting proposal:

In the last two years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process.

232-12-088 Baiting for the purposes of hunting deer or elk with exceptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk with some exceptions for youth hunters, elderly hunters, and hunters with disabilities while still imposing a volume restriction.

Reasons supporting proposal:

In the last two years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process.

The non-random input the Department received via the website indicated that 23% of hunters wanted a ban on baiting with an exception for food plots and agricultural operations. 232-28-248 Special closures and firearm restriction areas

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to change the Special Closures and Firearm Restriction Areas; adjust the boundaries and dates of Firearm Restriction Areas to better address safety issues while still accommodating hunting as a management tool. The proposal also recommends adding semi-auto handguns of .40 caliber or larger for the modern firearm season.

The proposed changes to the Deer Area Descriptions will accommodate additional land acquired and added to the 4-O Wildlife Area since last year. The effect will be to better discern hunting boundaries.

The proposed changes to the Elk Area Descriptions will accommodate additional land acquired and added to the 4-O Wildlife Area since last year. The proposal also recommends an adjustment to Elk Area 3911 which will remove a portion of public land. This change will allow better distribution of elk away from private agricultural lands. A boundary change is proposed for an Elk Area in Klickitat County to better address wildlife conflict and a new Elk Area is proposed in GMU 522 to create a new Quality elk opportunity. In addition, boundary changes to an existing Elk Area and the creation of a new Elk Area are proposed to better address agricultural damage caused by elk in Pierce County.

Reasons supporting proposal:

Special closures and firearm restriction areas allow the Fish and Wildlife Commission to restrict or close hunting activity in certain areas to optimize safety, discourage trespass on restricted lands, and protect sensitive species.

Deer Areas and Elk Areas allow the Fish and Wildlife Commission to adopt hunting seasons that can be conducted at a smaller scale than the Game Management Unit. Setting seasons at this scale allows for more strategic wildlife management using hunting as a tool to control populations and mitigate wildlife conflict.

232-28-357 2015-2017 Deer general seasons and definitions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general season deer hunting opportunity for the years 2015-2017. The purpose of this proposal is also to retain special permit deer hunting opportunity for 2015. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: These proposals provide for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable general deer hunting season opportunities for 2015-2017. The proposal would also maintain sustainable deer special permit hunting season opportunities for 2015. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

232-28-358 2015-2017 Elk general seasons and definitions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
