## Summary

---

**Meeting dates:** April 9-10, 2015

**Agenda item:** Deer General Hunting Seasons and Deer Special Permit Seasons

**Presenter:** Jerry Nelson, Ph.D., Deer and Elk Section Manager, Wildlife Program

---

### **Background summary:**

Staff will propose amendments to WAC 232-28-357 2015-2017 Deer General Seasons and Definitions; and WAC 232-28-359 2015 Deer Special Permits. Recommendations to expand deer hunting opportunity will be described.

- The option to retain or eliminate the 4-point antler restriction for white-tailed deer in GMUs 117 and 121 will be presented to the Commission. Available information does not indicate that the 4-point restriction is having a positive effect on the deer population. However, some negative economic impacts are being felt by the local community and hunting opportunity is being unnecessarily limited by the restriction. The Department recommends returning these GMUs to “any buck” general season opportunity.
  - Additional antlerless white-tailed deer opportunity is being proposed in the general season.
  - Proposal includes adding two (2) days to the modern firearm mule deer hunting season.
  - Additional special permit opportunity is being proposed for youth, senior, and disabled hunters.
- 

### **Policy issue(s) you are bringing to the Commission for consideration:**

- Maximizing recreational hunting opportunity.
  - Continue sustainable hunting seasons for deer.
  - Managing wildlife conflict issues utilizing hunters.
- 

### **Public involvement process used and what you learned:**

The Department conducted an extensive public involvement process to develop the 2015-2017 hunting season recommendations. This summer, two online issue scoping surveys were made available to the public. The first survey laid out major issues of concern. The second survey was a follow-up based on the public response received from the first survey. The department also held six public meetings, three on each side of the state. Both the surveys and the meetings were publicized via news release, WDFW’s website and an email to hunters from the last five years. Also, a request for comment was sent to over 9000 individuals and organizations through the rulemaking process. Additionally, these individuals and organizations were informed of the opportunity to provide verbal testimony at the March 20-21, 2015 Commission Meeting in Moses Lake.

---

### **Action requested:**

Amend WAC 232-28-357 and 232-28-359 as proposed.

---

### **Draft motion language:**

I move to amend WAC 232-28-357 as proposed including Option B and 232-28-359 as proposed.

---

### **Justification for Commission action:**

- To provide opportunities to hunters, consistent with achieving management objectives.
  - To address and prevent wildlife conflict problems.

**Master Hunter** - Only master hunters may apply. Weapon must be consistent with weapon/tag restriction noted for hunt. Additional weapon restrictions may be conditioned by the hunt coordinator for each hunt. For those hunts requiring the purchase of a master hunter second tag, one deer may be killed in the unit under the authorization of the special permit.

### **WAC 232-12-078 Baiting for the purposes of hunting deer or elk**

#### **Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk for all hunters.

#### **Reasons supporting proposal:**

In the last two years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process.

The non-random input the Department received via the website indicated that 23% of hunters wanted a ban on baiting with an exception for food plots and agricultural operations. Fourteen percent (14%) of hunters wanted to disallow the use of bait by hunting guides and restrict the manner and volume of baiting by hunters not using guides. A 63% majority of the hunters commenting wanted no change to the rules pertaining to baiting deer and elk.

In a random telephone survey of deer hunters, 59% either opposed or strongly opposed baiting for deer. Deer hunters that strongly supported or supported baiting for deer made up 21% of the respondents. Eleven percent (11%) of those surveyed were neutral and 9% didn't know.

In the same random telephone survey, 68% of elk hunters either opposed or strongly opposed baiting for elk. Elk hunters that supported or strongly supported using bait to hunt elk were 14%. Eleven percent (11%) of those surveyed were neutral and 8% didn't know.

Although some potential exists, the Department has no data at this time to suggest that the practice of baiting for deer and elk hunting has a negative population or natural resource effect. Therefore it is a social issue that the Fish and Wildlife Commission will address.

### **232-12-079 Bait volume limits for the purposes of hunting deer or elk**

#### **Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk if the bait volume exceeded 10 gallons (1.34 cubic feet).

**232-12-088 Baiting for the purposes of hunting deer or elk with exceptions.**

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk with some exceptions for youth hunters, elderly hunters, and hunters with disabilities while still imposing a volume restriction.

**Reasons supporting proposal:**

In the last two years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process.

The non-random input the Department received via the website indicated that 23% of hunters wanted a ban on baiting with an exception for food plots and agricultural operations. Fourteen percent (14%) of hunters wanted to disallow the use of bait by hunting guides and restrict the manner and volume of baiting by hunters not using guides. A 63% majority of the hunters commenting wanted no change to the rules pertaining to baiting deer and elk.

In a random telephone survey of deer hunters, 59% either opposed or strongly opposed baiting for deer. Deer hunters that strongly supported or supported baiting for deer made up 21% of the respondents. Eleven percent (11%) of those surveyed were neutral and 9% didn't know.

In the same random telephone survey, 68% of elk hunters either opposed or strongly opposed baiting for elk. Elk hunters that supported or strongly supported using bait to hunt elk were 14%. Eleven percent (11%) of those surveyed were neutral and 8% didn't know.

Although some potential exists, the Department has no data at this time to suggest that the practice of baiting for deer and elk hunting is having a negative population or natural resource effect in Washington. Therefore it is a social issue that the Fish and Wildlife Commission will address.

### **232-28-248 Special closures and firearm restriction areas**

#### **Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

The purpose of the proposal is to change the Special Closures and Firearm Restriction Areas; adjust the boundaries and dates of Firearm Restriction Areas to better address safety issues while still accommodating hunting as a management tool. The proposal also recommends adding semi-auto handguns of .40 caliber or larger for the modern firearm season.

The proposed changes to the Deer Area Descriptions will accommodate additional land acquired and added to the 4-O Wildlife Area since last year. The effect will be to better discern hunting boundaries.

The proposed changes to the Elk Area Descriptions will accommodate additional land acquired and added to the 4-O Wildlife Area since last year. The proposal also recommends an adjustment to Elk Area 3911 which will remove a portion of public land. This change will allow better distribution of elk away from private agricultural lands. A boundary change is proposed for an Elk Area in Klickitat County to better address wildlife conflict and a new Elk Area is proposed in GMU 522 to create a new Quality elk opportunity. In addition, boundary changes to an existing Elk Area and the creation of a new Elk Area are proposed to better address agricultural damage caused by elk in Pierce County.

#### **Reasons supporting proposal:**

Special closures and firearm restriction areas allow the Fish and Wildlife Commission to restrict or close hunting activity in certain areas to optimize safety, discourage trespass on restricted lands, and protect sensitive species.

Deer Areas and Elk Areas allow the Fish and Wildlife Commission to adopt hunting seasons that can be conducted at a smaller scale than the Game Management Unit. Setting seasons at this scale allows for more strategic wildlife management using hunting as a tool to control populations and mitigate wildlife conflict.
