Summary

Meeting dates: August 18, 2017

Agenda item: Puget Sound Recreational Clam and Oyster Season Changes (rule change action)

Presenter(s): Chris Eardley, Puget Sound Shellfish Policy Coordinator, Fish Program

Background summary:

Changes to the recreational clam and oyster seasons on Puget Sound public beaches are recommended annually in order to maximize recreational opportunity while preventing overharvest of the state shares. Season changes are recommended based on the results of annual clam and oyster population surveys, expected recreational effort, the frequency of low tides, and taking into consideration public health concerns and administrative needs. For 2017, shellfish staff recommends clam and oyster season changes to 15 public beaches based on survey and effort information (Attachments A and B, respectively). Of these proposed 15 changes, 12 beaches will have longer seasons compared to 2016 and 3 will have shorter seasons. In addition, 6 beaches will be revised based on public health considerations (Attachment C). In order to meet administrative needs, 20 beaches will have revised text in both areas and seasons WACs (Attachment D). Specifics on these changes are outlined in the attached tables.

Following negotiations with the affected treaty tribes, state and tribal co-managers agreed there were no conservation reasons to maintain a smaller minimum size limit for clams on the public tidelands on the west side of the bay and north of the boat ramp. Previously, Quilcene Bay was the only site in Puget Sound with a codified smaller size limit of 1 ¼ inches. This rule change standardizes the minimum size limit on all public tidelands to 1 ½ inches measured across the longest part of the shell.

Staff presented the above rule change proposals to the Commission at a public hearing on August 4, 2017 in Olympia.

Policy issue(s) you are bringing to the Commission for consideration:

None

Public involvement process used and what you learned:

Season change recommendations were coordinated where appropriate with Washington State Parks staff, WA Department of Natural Resources, WA Department of Health and county governments. All season change recommendations were announced on the agency web site and the Shellfish Rule Change phone hotline. Additional public testimony was offered at the August 4 Commission hearing. One comment (a question) was received requesting clarification on the proposed change in minimum clam size at Quilcene Tidelands. No additional comments were received; no testimony occurred at the August 4 Commission hearing.

Action requested:

Commission action on proposed rule changes to WAC 220-330-110, Clam Seasons and WAC 220-330-140, Oyster Seasons.

Draft motion language:

Move to adopt permanent amendments to WAC 220-330-110 and WAC 220-330-140, as recommended by Department staff (attached).

Justification for Commission action:

This action is justified under RCW 77.12.047.

Communications Plan:

Agency web site and Shellfish Rule Change phone hotline, news releases, beach signage, and the 2017-2018 Sport Fishing Rules pamphlet.

Form revised 12/5/12

2017 Puget Sound Recreational Clam and Oyster Season Changes WAC Change Summary Sheet

The intertidal bivalve management team has completed analysis of survey data, sport harvest projections, and negotiations affecting intertidal sport regulations with treaty tribes. Using this information and also taking into consideration public health concerns and administrative needs, the following is a synopsis of the recommended changes to the permanent clam and oyster seasons (WAC 220-330-110 and –140) for Puget Sound beaches in 2017.

Rationale	Resulting Change	Clam Beaches Affected	Clam Season Length Change (months)	Oyster Beaches Affected	Oyster Season Length Change (months)
TAC and Conservation	Longer Season	12	+29.5	10	+28.5
	Shorter Season	3	-7.0	3	-7.0
	<i>TOTAL</i>	15	+22.5	13	+21.5
Public Health	Beaches Opened	2	+24	2	+24
	Beaches Closed	2	-24	4	-48
	<i>TOTAL</i>	4	0	6	-24
Administrative Changes	Beaches Removed	5	0	5	0
	Text Change	19	0	19	0
	<i>TOTAL</i>	24	0	24	0

Information on specific beaches are attached and are grouped based upon the rationale for the change i.e. TAC and conservation, public health, or administrative need.

A recommendation to change the minimum size limit for clams for Quilcene Bay (WAC 220-330-120 Clams, oysters, mussels – Unlawful acts) is being proposed. Following negotiations with the affected treaty tribes, state and tribal co-managers agreed there were no conservation reasons to maintain a unique smaller minimum size limit for clams on this public tideland. Previously, Quilcene Bay was the only site in Puget Sound with a codified smaller size limit of 1 ¼ inches. This rule change standardizes the minimum size limit on all public tidelands to 1 ½ inches measured across the longest part of the shell.

In addition, a copy of the submitted CR-102 and OTS text changes are attached. It is planned that these recommendations will be presented for public testimony at the August 4-5, 2017 Commission meeting, and adopted on the August 18, 2017 WDFW Commission conference call.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Recent clam and oyster survey data, sport harvest projections, and negotiations affecting intertidal treaty and non-treaty fisheries, along with public health considerations and administrative tasks, call for recreational clam and oyster seasons to be extended or shortened on some public beaches. Due to changes in beach ecology at Quilcene Bay Tidelands, state and tribal co-managers agreed that the exception to the statewide minimum size for hardshell clams is no longer appropriate for this site and this exception should be repealed. This proposal reflects these changes.

Reasons supporting proposal:

These amendments will perpetuate shellfish resources while maximizing recreational fishing opportunity and protecting public health.

It is permissible to take, dig for, and possess clams, cockles, borers, and mussels, not including razor clams, for personal use in Grays Harbor and Willapa Harbor year-round, except from state oyster reserves, which are closed to clam digging year-round.

It is permissible to take, dig for, and possess clams, cockles, borers, and mussels, not including razor clams, for personal use from the Pacific Ocean beaches from November 1 through March 31 only.

AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

WAC 220-330-120 Clams, oysters, mussels—Unlawful acts. (1) It is unlawful to take, dig for and possess clams (excluding razor clams), cockles, and mussels taken for personal use except by hand or with hand-operated forks, picks, mattocks, rakes and shovels. Violation of this subsection is an infraction, punishable under RCW 77.15.160.

(2) It is unlawful to take, dig for and possess razor clams taken for personal use except by hand, shovels or with cylindrical cans, tubes or hinged digging devices. The opening of tubes or cans must be either circular or elliptical with the circular can/tube having a minimum outside diameter of 4 inches and the elliptical can/tube having a minimum dimension of 4 inches long and 3 inches wide outside diameter. The hinged digging device when opened in a cylindrical position, must have a minimum outside diameter of 4 inches at the bottom. Violation of this subsection is an infraction, punishable under RCW 77.15.160.

(3) Any newly designed or modified digging device intended for the recreational use of razor clams must receive the specific approval of the director of fish and wildlife.

(4) In the field each digger, including holders of razor clam disability permits, must have his or her daily limit in a separate container. Violation of this subsection is an infraction, punishable under RCW 77.15.160.

(5) It is unlawful to possess shellfish taken with gear that violates the provisions of this section. Possession of shellfish while using gear in violation of the provisions of this section is a rebuttable presumption that the shellfish were taken with such gear. Possession of such shellfish is punishable under RCW 77.15.380 Unlawful recreational fishing in the second degree—Penalty, unless the shellfish are taken in the amounts or manner to constitute a violation of RCW 77.15.370 Unlawful recreational fishing in the first degree—Penalty.

(6) It shall be unlawful for any person digging clams other than razor clams for personal use to fail to fill in holes created during the digging operation. Beach terrain must be returned to approximately its original condition by clam diggers before leaving the scene.

(7) It shall be unlawful to maim, injure or attempt to capture a geoduck by thrusting any instrument through its siphon or to possess only the siphon or neck portion of a geoduck.

(8) Oysters taken for personal use must be shucked before removing oysters from the intertidal zone and the shells replaced on the tidelands at the approximate tide level from which originally taken and it shall be unlawful for any person to fail to do so.

(9) It is unlawful to possess Manila, native littleneck, cockle, or butter clams taken for personal use which measure less than 1-1/2 inches across the longest dimension of the shell (~~(except minimum size 1-1/4 inches if taken from public tidelands on the west side of Quilcene Bay north of the county boat ramp)~~).

(10) It is unlawful to return any eastern softshells, horse clams, or geoducks to the beach or water regardless of size or condition. All such clams taken for personal use must be retained by the digger as part of the daily limit.

(11) Violation of the provisions of this section shall be an infraction, punishable under RCW 77.15.160.
