# 2010 Wild Turkey Season

Since 1960, three subspecies of wild turkey have been introduced in Washington: the Merriam's, Rio Grande, and eastern.

Currently, the Merriam's subspecies occupies portions of Ferry, Klickitat, Pend Oreille, Skamania, Stevens, Spokane, Okanogan, Chelan, Kittitas, and Yakima counties. Rio Grande turkeys can be found in Asotin, Columbia, Garfield, Lincoln, Walla Walla, and Whitman counties. Turkeys of the eastern subspecies can be found west of the Cascades in Cowlitz, Grays Harbor, Lewis, Mason, Pacific, Thurston, and Wahkiakum counties.

## Fall Turkey Season

Fall seasons may change, so it is important to check with WDFW after the April meeting of the Fish and Wildlife Commission each year to see what the fall turkey season regulations will be during any particular year. Fall season information will also be made available in the big game pamphlet.

## The Land and Landowners

A true sportsman respects the land and demonstrates this respect and appreciation while in the field. Remember to obtain permission from the owner before entering upon his or her land to hunt or fish. And, while in the field, conduct yourself in a way that will ensure a welcome to those who follow after you.

# Primary Distribution of Wild Turkey

# IMPORTANT NOTICE:

## – Mandatory Reporting –

**Hunters are Required to Report Last Years Hunting Activity Prior to Purchasing a New License.**

Turkey hunters must report their hunting activity whether or not they harvest an animal. Hunters not reporting by January 31 will be subject to a \$10 penalty which must be paid before they can purchase a license for the following year. One hunter report is required for each tag acquired.

Hunters can file reports two ways: by telephone (toll free at 1-877-945-3492) or on the internet at [www.fishhunt.dfw.wa.gov](http://www.fishhunt.dfw.wa.gov); there are no longer paper harvest report cards. Hunters who harvest an animal should file a report within 10 days of taking the animal. Unsuccessful hunters must also report their hunting activity, including location and days hunted. The information will be used by WDFW to better monitor hunter effort, distribution, harvest, and trends.

**Special note for turkey hunters:** Having a spring and fall season can make hunt reporting confusing. If you do not intend to apply for a fall turkey permit or hunt in general fall season, you should report spring turkey hunting activity after May 31st. If you do intend to hunt in the fall, you should wait to report spring activity or fall activity until after the fall season.

You will need the following information to file your report for turkey hunting.

Do **NOT** mail this information to WDFW; reports can **ONLY** be accepted through the toll free number or internet.

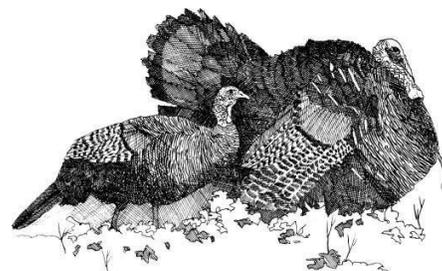

1. Whether or not you hunted turkeys.
2. For each turkey tag:
  - a. The number of the GMUs you hunted in (2 most hunted GMUs).  
Please refer to a Big Game pamphlet or other source for a GMU map.
  - b. The number of days hunted in each GMU.
3. For each turkey you harvest:
  - a. Number of the GMU where turkey was harvested.
  - b. Month, day, and year of harvest.
  - c. Sex of the turkey.
  - d. Age of the turkey: adult, yearling, or juvenile (fall season only)

## Vehicle Use Permits on WDFW Lands

The Department manages 844,000 acres of prime wildlife habitat and 700 lake and river access sites across the state for your use and enjoyment. A Vehicle Use Permit from the Washington Department of Fish and Wildlife (\$12 or FREE with a hunting or fishing license) is required. Decal sales support upkeep of these areas which are currently operating at 45% of the funding need. More information at [www.dfw.wa.gov](http://www.dfw.wa.gov) or call a Fish and Wildlife office. You can do more than hunt and fish on Department lands.

Vehicle Use Permits are required to park and use WDFW lands. The permits generate funding for maintenance of WDFW lands and water access sites used by hunters, anglers, boaters, bird watchers and other recreationists. The permits are issued only once annually to each license holder and are transferrable between up to two vehicles. Additional permits may be purchased for \$6 each. Original permits are \$12 each if purchased separately without a fishing or hunting license. The permits must be clearly displayed and visible from outside the vehicle. They can be placed on the dash, hung from the rear view mirror or placed on the front seat.

The penalty for parking on WDFW lands without a permit has been revised. The infraction for parking without a permit will be automatically reduced if the vehicle owner shows proof he or she has purchased a permit within 15 days of the violation.

This link will take you to maps that display areas on public land in Stevens, Ferry and Pend Oreille counties that offer good opportunities for finding turkeys during the spring hunting season and all of which are open for hunting. Some of the areas border private land and the owners might or might not allow hunting. Respect private property: do not trespass on private land without the landowner's permission.

The Colville National Forest has developed a Disabled Hunter Access Program. Go to the link for maps and information:

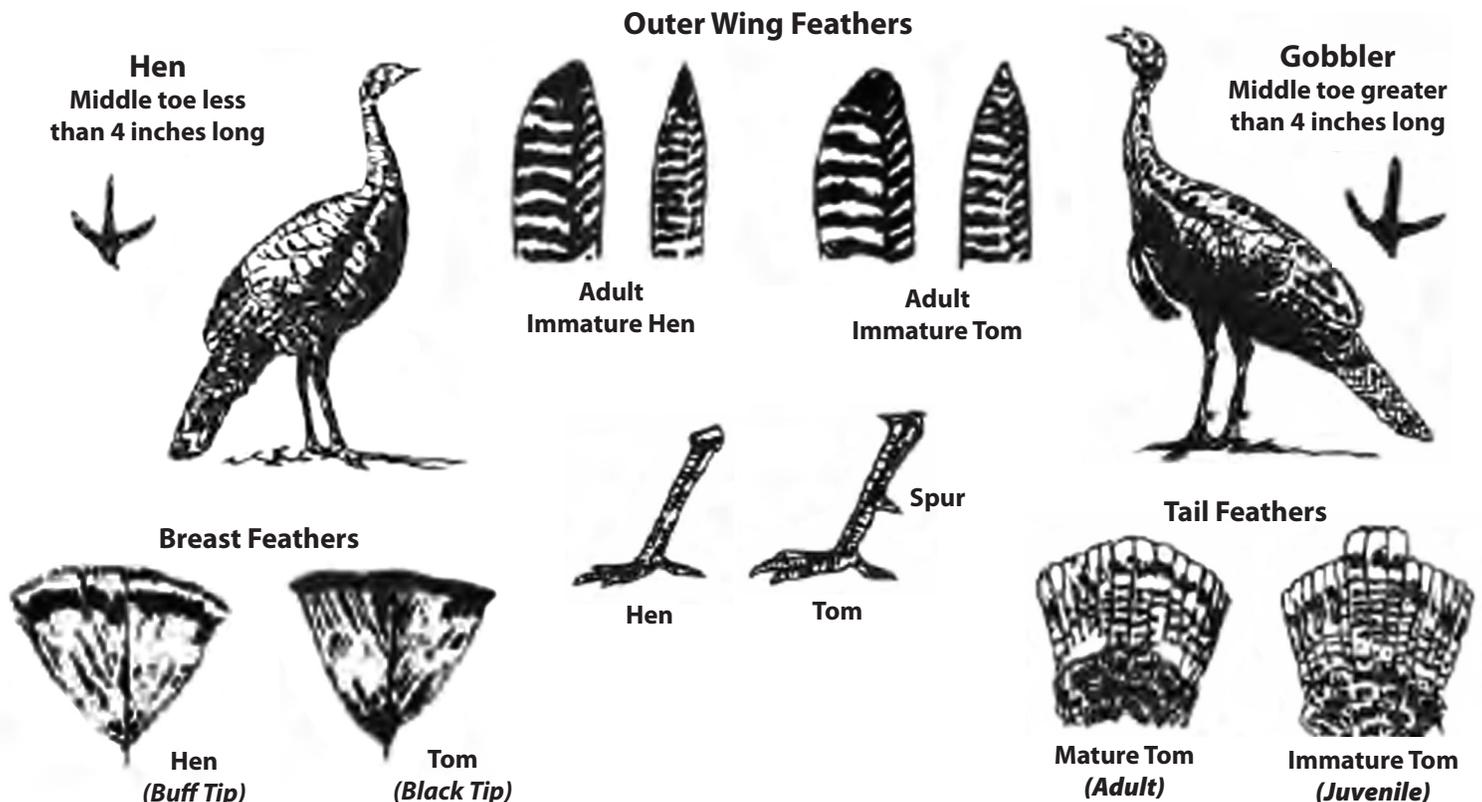

<http://www.fs.fed.us/r6/colville/recreation/disable-hunter/>

The Disabled Hunter Access (DHA) program is a cooperative effort between the US Forest Service, Washington Department of Fish and Wildlife, the Northeastern Washington Forestry Coalition and others. This program was established to provide high quality hunting opportunities on the Colville National Forest to hunters with disabilities.

## Sex and Age of Wild Turkeys

# Safe and Ethical Turkey Hunting

1. **Be absolutely positive of your target.** After you pull the trigger, it's too late.
2. **ALWAYS ask permission to hunt on private land.** Most landowners are cooperative if you ask.
3. **Do not attempt to stalk a turkey.** That gobbler you're stalking may be another hunter.
4. **Unless absolutely necessary, don't use a gobbler call.** This call can be productive, but also very dangerous. Use this call when all else fails and then sparingly.
5. **Never wear any red, white, or blue clothes.** These are the colors of the gobbler's head, the primary target of the turkey hunter.
6. **Never presume what you hear is a turkey.** Many hunters are convincing callers.
7. **Select a calling site that gives at least 40 yards of vision in all directions and sit with your back to a large tree.**
8. **If another hunter is working a bird, don't spoil it by calling or spooking the bird.**
9. **Make sure that the gobbler is within sure range of the shotgun and shoot only the neck and head.**
10. Should you see another hunter (especially if he/she is close to your "line of sight") call out to the hunter in a **loud, clear voice.**

# Washington Slam

The Washington Chapter of the National Wild Turkey Federation in cooperation with the Department of Fish and Wildlife is sponsoring brass pins in recognition of achieving the "Washington Slam."

The eastern, Merriam's, and Rio Grande subspecies of wild turkey currently inhabit Washington state. For the purposes of the "Washington Slam," subspecies are defined by county of kill. Merriam's: Ferry, Klickitat, Pend Oreille, Skamania, Chelan, Kittitas, Okanogan, Yakima, Spokane and Stevens; Rio Grande: all eastern Washington counties except Ferry, Klickitat, Pend Oreille, Skamania, Chelan, Kittitas, Okanogan, Yakima, Spokane and Stevens; eastern: all western Washington counties except Klickitat and Skamania. The taking of 1 of each of these subspecies constitutes a "Washington Slam." This achievement will be verified by successful hunters returning their game harvest report cards to WDFW and completion of record forms available upon request from the Washington Chapter of NWTF. These forms will also be used for submission of information to establish Washington state turkey records.
