**FISH and
WILDLIFE**

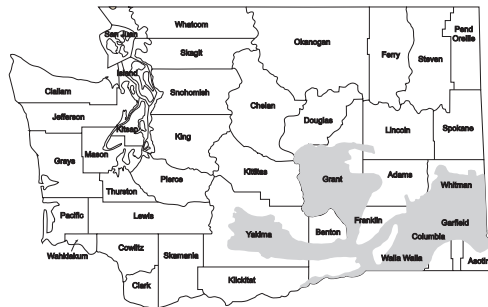

EASTERN WASHINGTON PHEASANT ENHANCEMENT PROGRAM

Since the 1980's pheasant harvest has declined, with a few exceptions during years of favorable spring weather. Habitat loss has been the key problem. In 1991, WDFW initiated a very aggressive habitat enhancement program to address this continual loss. Until these habitat enhancement efforts can be established on a broad scale, the release of pheasants will help supplement harvest and maintain hunter opportunity.

In 1997, the Legislature created the Eastern Washington Pheasant Enhancement Fund using a "surcharge" of \$10 on eastern Washington pheasant hunters. Beginning in 1999 a simplified license system resulted in a single fee for small game hunters. The pheasant enhancement fund will be retained by dedicating a percentage of the small game license fees. It will be based on the number of eastern Washington pheasant hunters. The small game license is \$38.00, it is \$21.20 if purchased with any big game license, and kids under 16 years old pay \$20.00, or \$11.60 with a big game license.

The idea was to develop a dedicated funding source to improve pheasant hunting in eastern Washington. Most of the funds are used to buy rooster pheasants for release on lands that are open for public access. The balance of the money is available for habitat

Primary Pheasant Zone

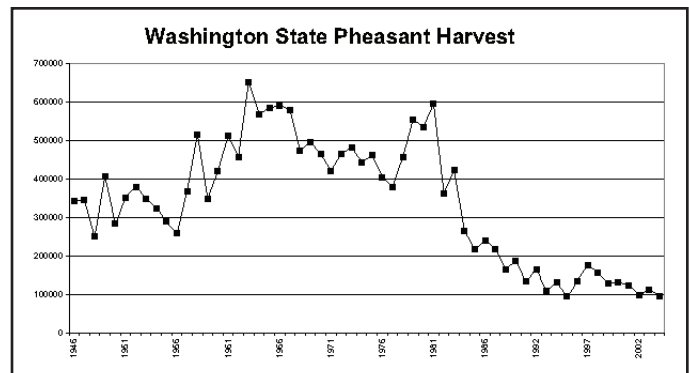

enhancement grants to private organizations, individuals, and state or federal agencies.

Each year thousands of pheasants will be released on public lands. Those release sites are shown on the maps in this brochure. Pheasants may also be released sporadically on lands open under the Feel Free to Hunt Program. The idea behind the release of roosters in eastern Washington is to supplement the harvest.

Releases will take place for the youth seasons on most of the sites in late September. We do not provide other release dates because we want to minimize crowding at the release sites and to promote the highest hunter ethics possible.

Habitat protection and enhancement continues to be the primary tool to maintain pheasant populations and hunting opportunity over the long term. WDFW invests up to \$1 million each year on upland bird management and private lands access. The pheasant enhancement program provides for habitat enhancements.

To protect other wildlife species including waterfowl and raptors, nontoxic shot is required for all upland bird, dove and band-tailed pigeon hunting on all pheasant release sites statewide.

WILDLIFE**

IMPORTANT NOTICE TO SMALL GAME HUNTERS

To protect other wildlife species including waterfowl and raptors, nontoxic shot is now required for all upland bird, dove and band-tailed pigeon hunting on all pheasant release sites statewide. If you hunt any of these release sites, you may use only approved nontoxic shot (either in shotshells or as loose shot for muzzleloading). Possession of lead shot is also regulated on some wildlife areas. See Migratory Waterfowl and Upland Game Seasons pamphlet for more information.

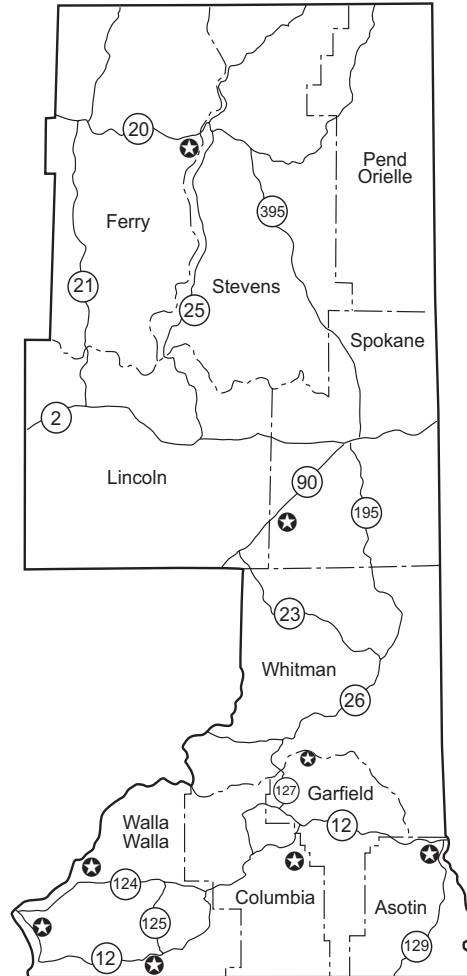

REGION ONE PHEASANT HUNTING INFORMATION

The best pheasant hunting in Region One is along the breaks of the Snake River and other major streams in Whitman, Garfield, Columbia, and Walla Walla counties. This part of the state has retained a more stable pheasant population over the years than areas near the irrigated farms of the Columbia and Yakima river basins.

Many of the pheasant release sites in these counties are owned by the U.S. Army Corps of Engineers. The sites are managed for wildlife as part of mitigation for the Snake and Columbia River dams. In addition to public lands, WDFW's Private Lands Access Program has over 300,000 acres of private land open for hunting under access agreements in Region 1, and a small number of pheasants are released on some of these lands. For maps and information about private and public hunting lands, please visit WDFW's online mapping program Go Hunt at www.wdfw.wa.gov/mapping/gohunt.

REGION ONE

REGION 1
(509) 892-1001
2315 N Discovery PL
Spokane Valley, WA 99216

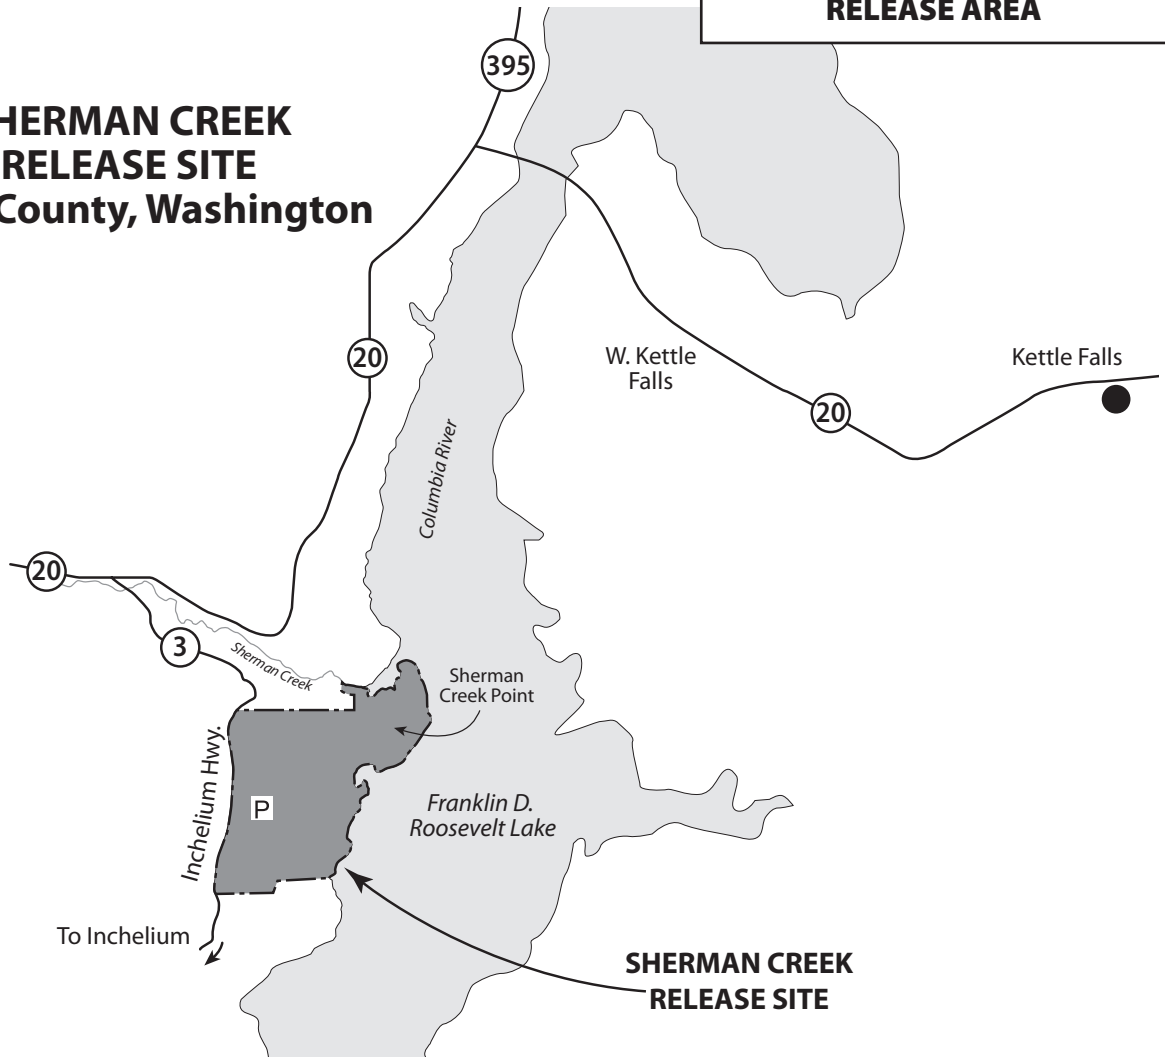

SHERMAN CREEK RELEASE SITE

The **Sherman Creek Wildlife Area** and release sites can be found by going west on Hwy 20 from the town of Colville. After crossing the Columbia River, head south and west on Hwy 20, then south on Inchelium HWY to the Sherman Creek release site.

**NONTOXIC SHOT REQUIRED
ON DESIGNATED
RELEASE AREA**

SHERMAN CREEK RELEASE SITE Ferry County, Washington

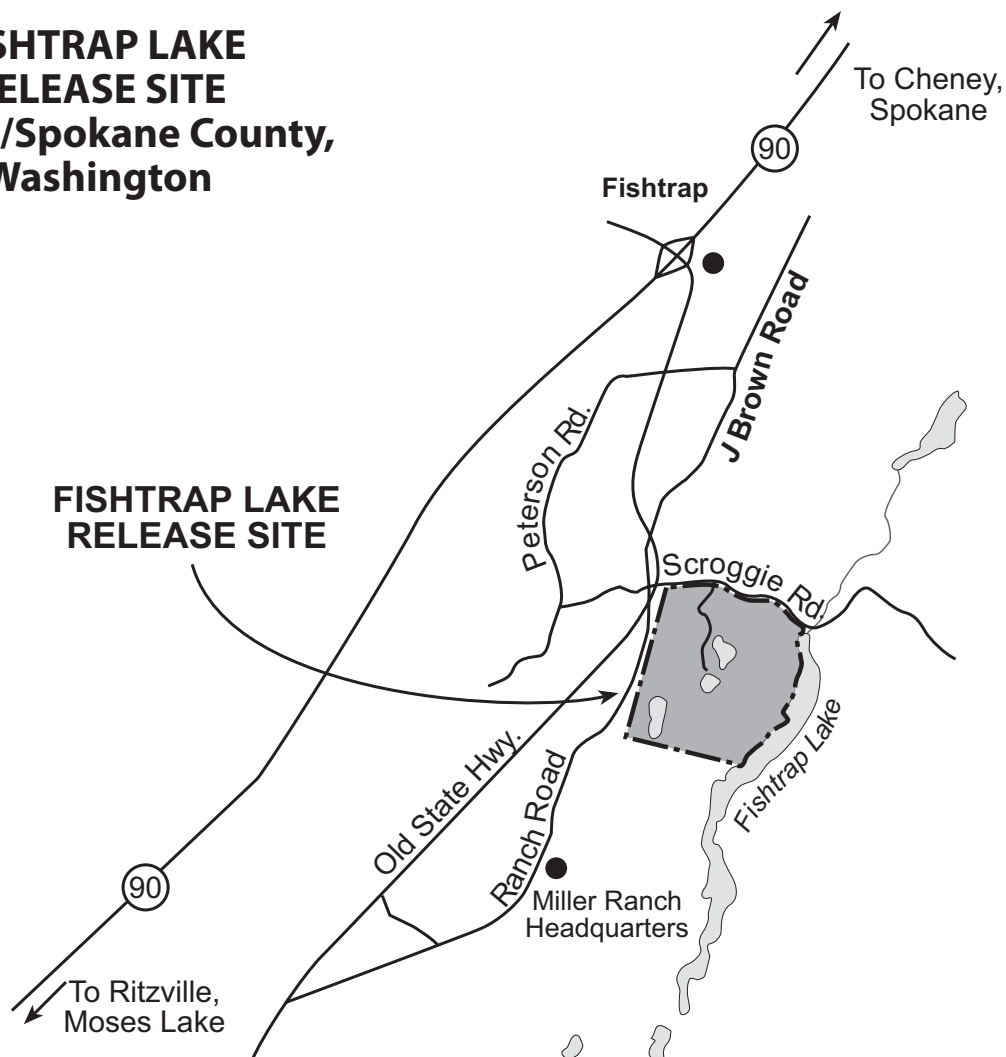

FISHTRAP LAKE RELEASE SITE

The **Fishtrap Lake** release site can be found by following the signs to Fishtrap Lake from I-90. The Fishtrap exit is approximately 8 miles east of Sprague and is between the towns of Sprague and Cheney.

**NONTOXIC SHOT REQUIRED
ON DESIGNATED
RELEASE AREA**

FISHTRAP LAKE RELEASE SITE Lincoln/Spokane County, Washington

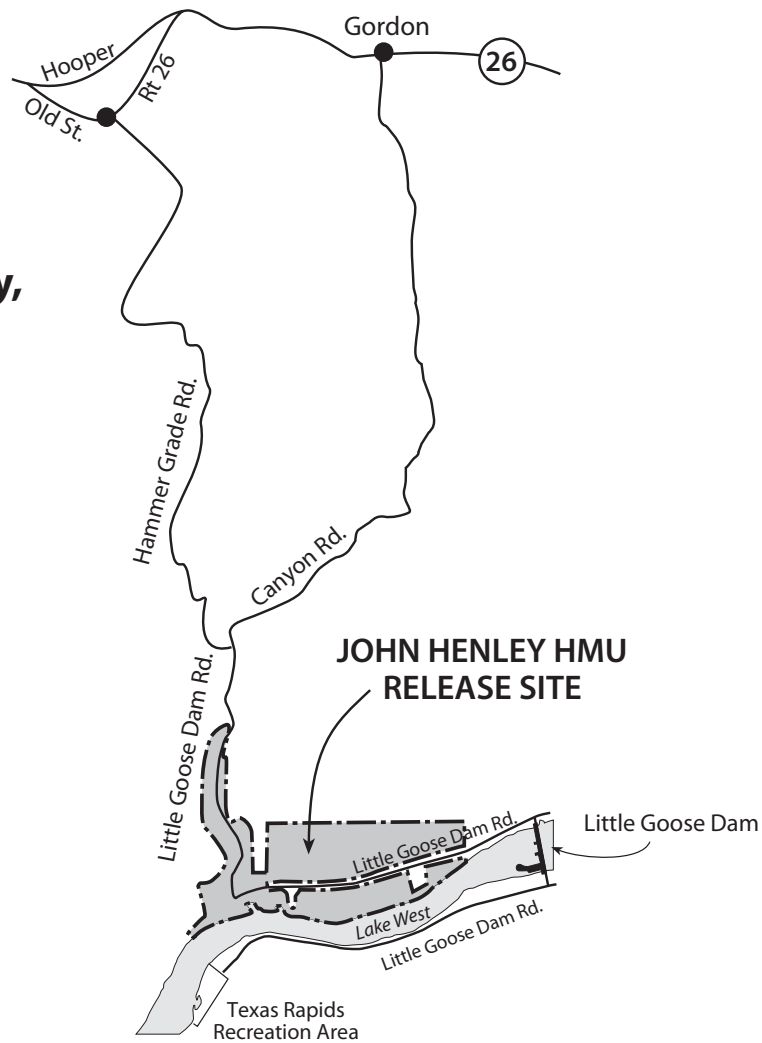

JOHN HENLEY RELEASE SITE

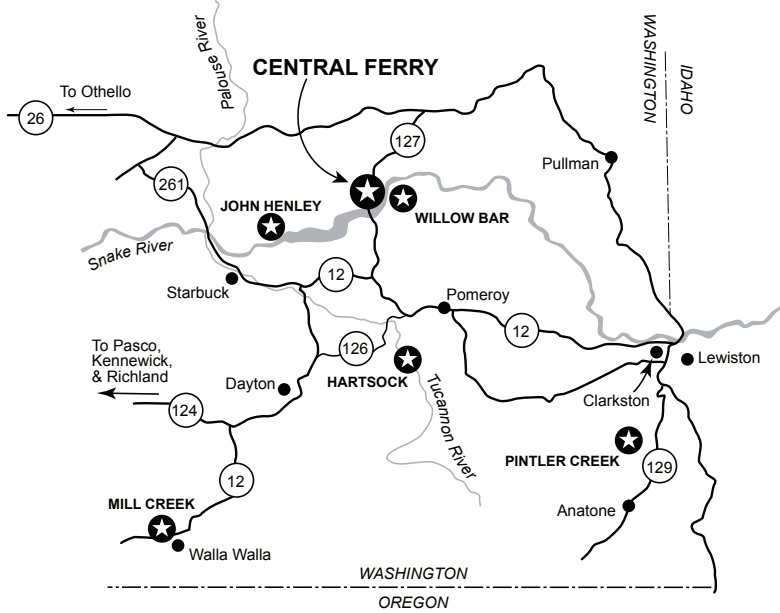

From Washtunca, head east on Hwy. 26 and from Colfax, head west on Hwy 26. At the town of Hooper turn south on Hammer Grade Road. Turn right on Long Hollow Road and continue south to the release site.

**NONTOXIC SHOT REQUIRED
ON DESIGNATED
RELEASE AREA**

JOHN HENLEY RELEASE SITE Whitman County, Washington

CENTRAL FERRY HMU RELEASE SITE

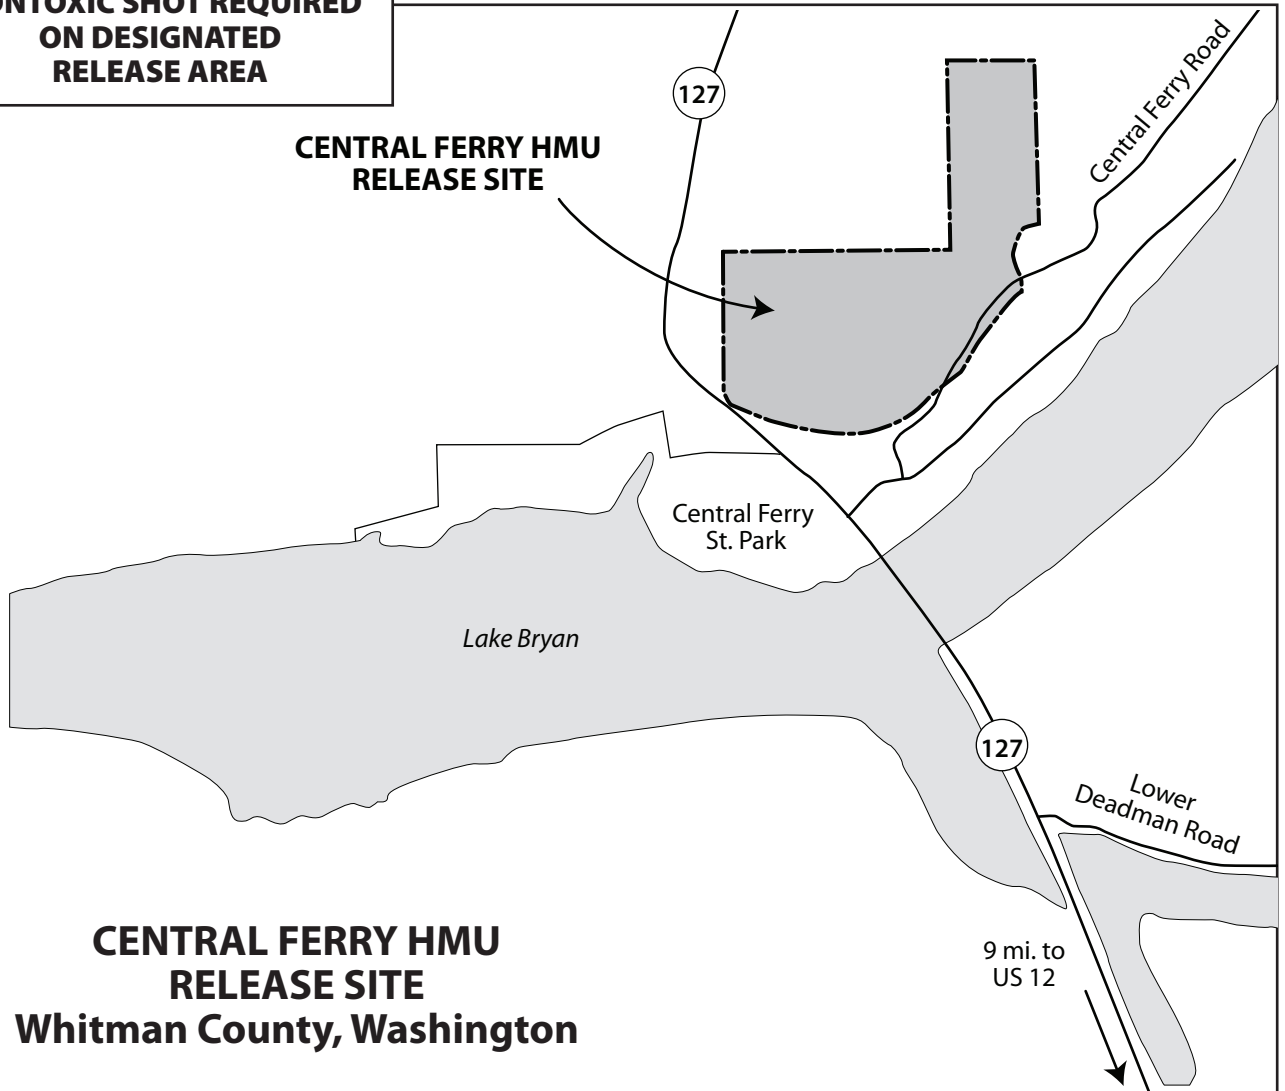

The **Central Ferry** site is one of several areas along the Snake River managed by the US Army Corps of Engineers (COE). To reach the site from Othello, travel east on Highway 26, then south on Highway 127 at the town of Dusty. To reach the site from Spokane, head south on Highway 395 to the town of Colfax, then go west on Hwy 26 to Dusty, then travel south on Hwy 127. From the Tri-Cities head south on Hwy 12 to the town of Burbank, then east on Hwy 124 to the town of Waitsburg, from there head east on Hwy 12 through the town of Dayton to the very small town of Dodge. From Dodge travel north on Hwy 127. The site is east of Hwy 127 and Central Ferry State Park on the north side of the Snake River.

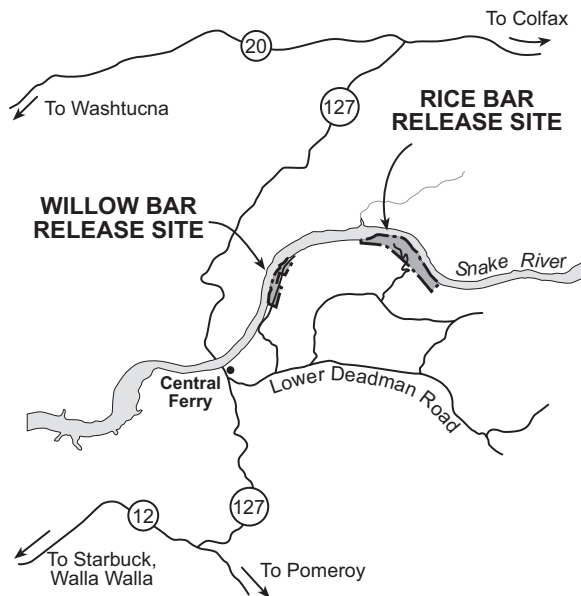

**NONTOXIC SHOT REQUIRED

REGION TWO PHEASANT HUNTING INFORMATION

REGION TWO

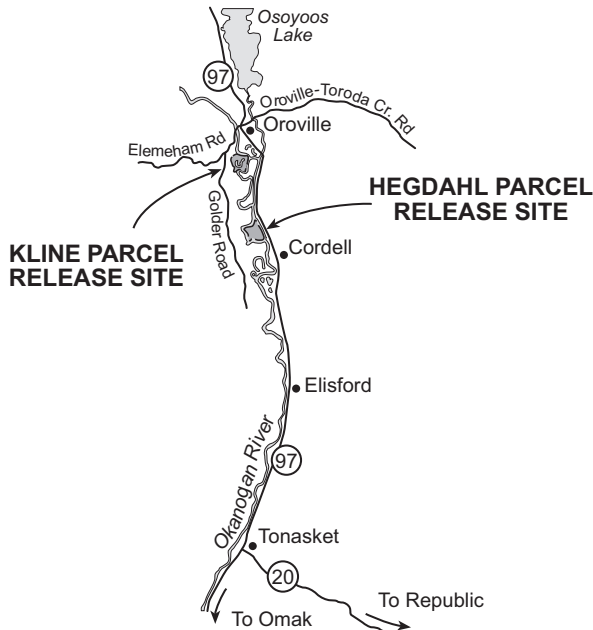

The best pheasant hunting in Region Two's is on wetland and native habitats adjacent to farm ground within the Columbia Basin Irrigation project near Moses Lake, Warden, and Othello. WDFW manages 192,000 acres in the Columbia Basin most of which is open for hunting. Pheasant numbers may be fair to good in some areas but hunting wild birds can be challenging due to heavy cover and strong tendency for birds to run and flush wild. In addition to public lands, WDFW's Private Lands Access program has private land open for hunting under access agreements and a small number of pheasants are released on some of these lands. For additional maps of public and private lands with pheasant hunting opportunity, Visit WDFW's online mapping program Go Hunt at www.wdfw.wa.gov/mapping/gohunt.

REGION 2
(509) 754-4624
1550 Alder St. NW
Ephrata, WA 98823-9699

SINLAHEKIN WILDLIFE AREA RELEASE SITE

Kline Parcel: From Oroville head south on the west side of the Okanogan River. The Kline Parcel is about one mile south of the town of Oroville.

Hegdahl Parcel: The Hegdahl Parcel is about 4 miles south of Oroville off Hwy 97. The site is on the east side of Okanogan River about 11 miles north of the town Tonasket.

**NONTOXIC SHOT REQUIRED
ON DESIGNATED
RELEASE AREA**

SINLAHEKIN WILDLIFE AREA RELEASE SITE Okanogan County, Washington

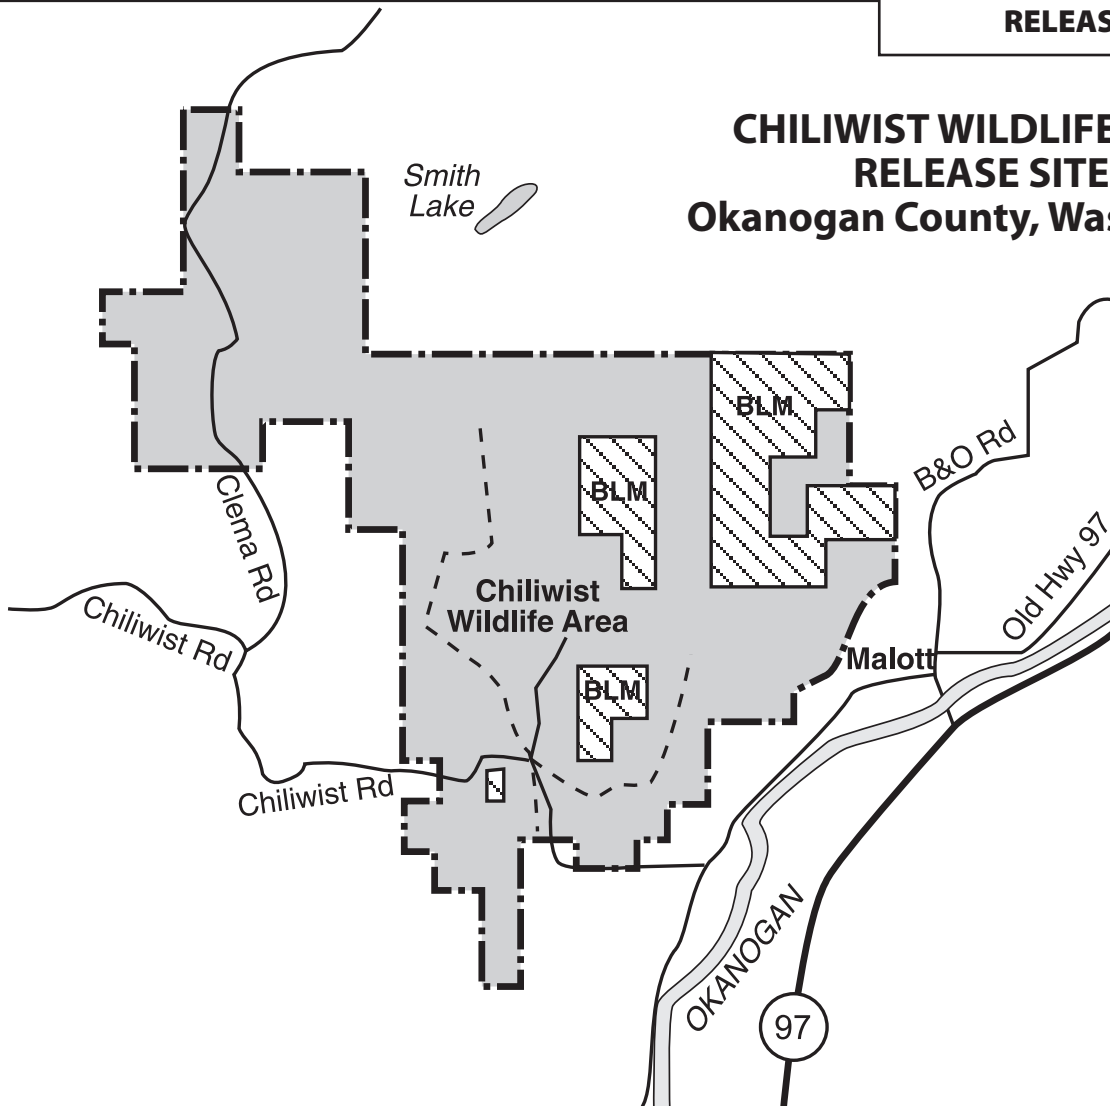

CHILIWIST WILDLIFE AREA

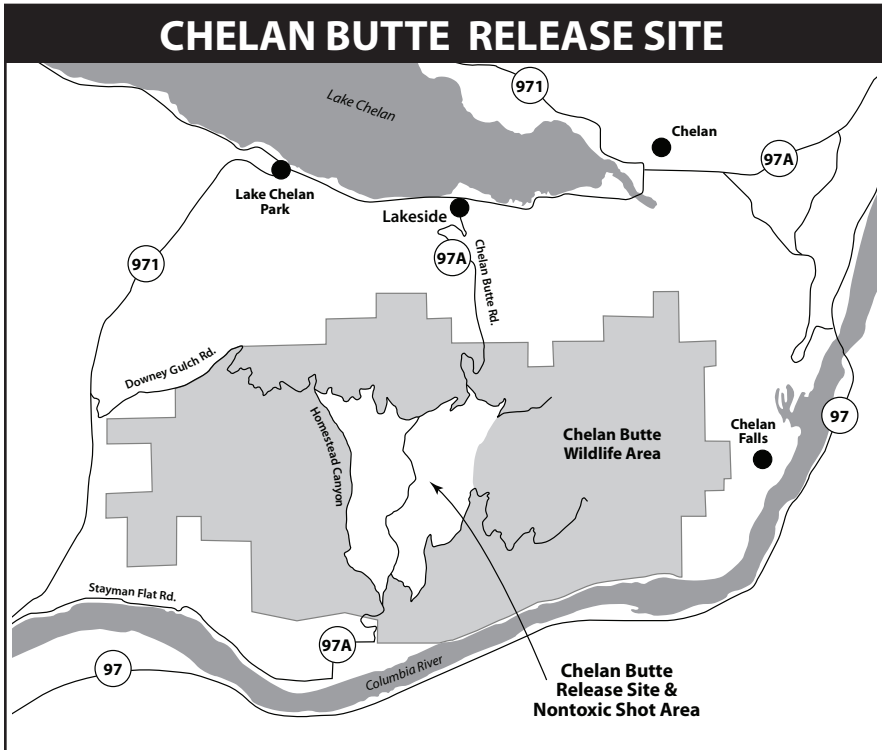

To reach the **Chiliwist Wildlife Area** and release site, travel south from Okanogan on Hwy 20. Continue south on Old Highway 97 through the town of Malott. Head west on the Chiliwist Road to the wildlife area and release site.

**NONTOXIC SHOT REQUIRED
ON DESIGNATED
RELEASE AREA**

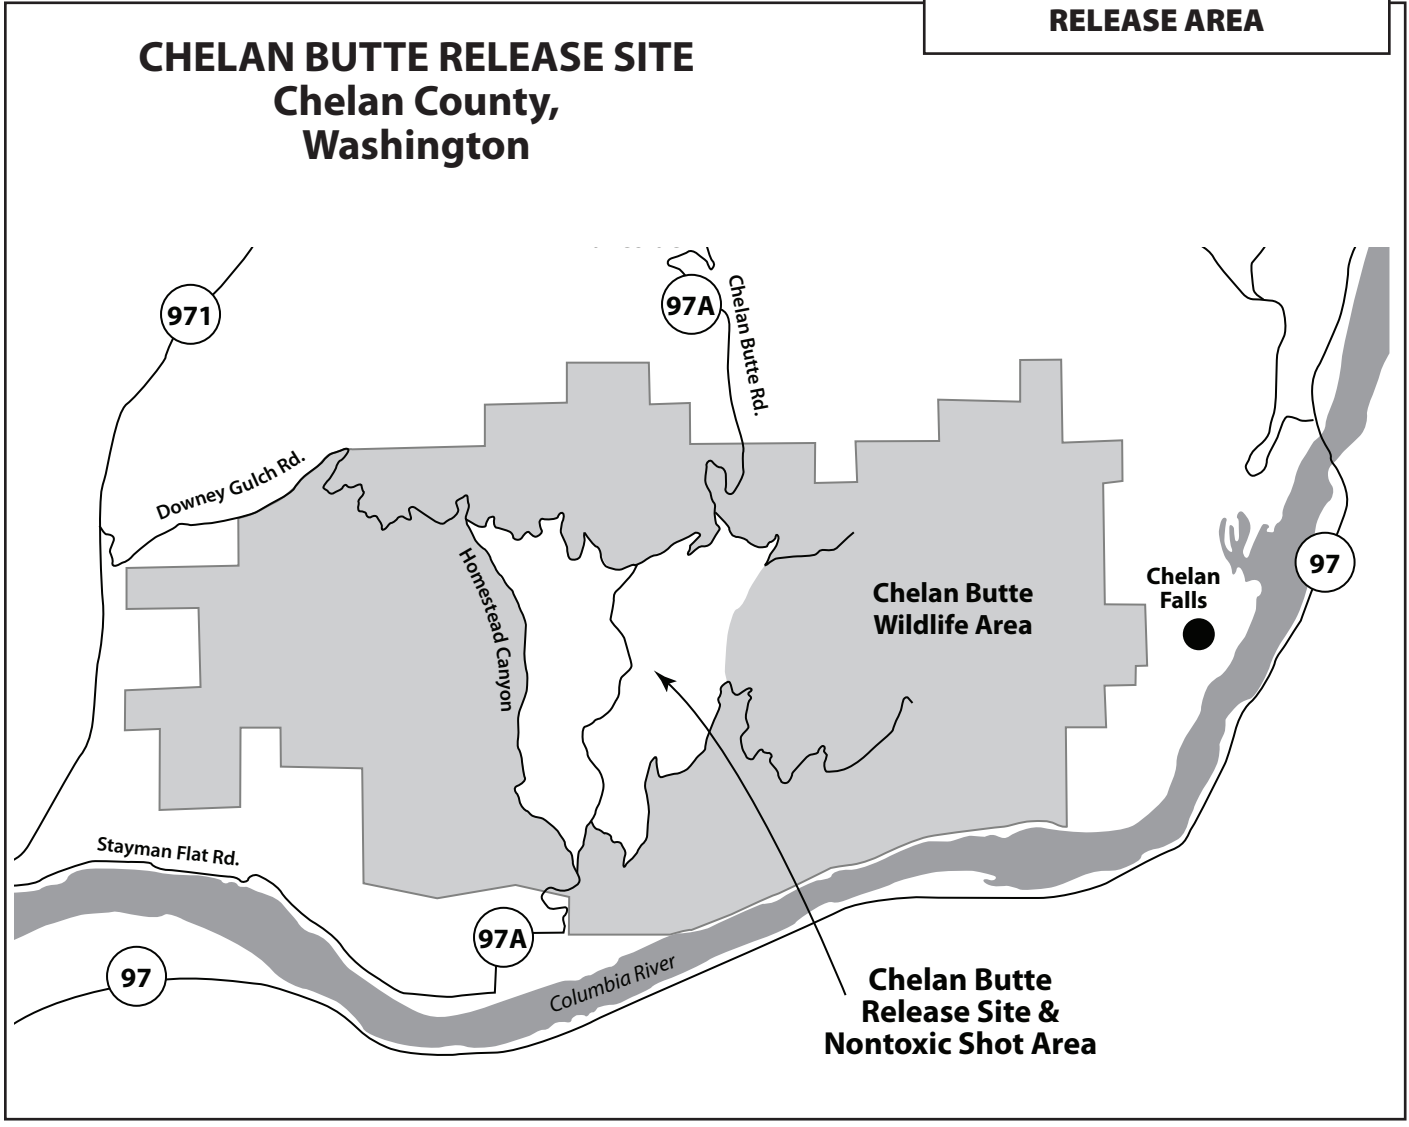

CHILIWIST WILDLIFE AREA RELEASE SITE Okanogan County, Washington

From Chelan head west and then south on Hwy 97 Alternate. Turn left on Downey Gulch or Stayman Flat Roads.

LOWER CRAB CREEK RELEASE SITE Grant County, Washington

REGION THREE PHEASANT HUNTING INFORMATION

REGION THREE

The best pheasant hunting in this Region is around the irrigated farmland in Benton, Yakima, and Franklin counties and along the Yakima River. A large part of the irrigated farmland in Yakima county is located on the Yakama Indian Reservation. Hunters interested in hunting on tribal lands should contact the office of the Yakama Indian Nation at (509) 865-5121. For maps of WDFW owned and managed land along the Yakima River, contact the Yakima Regional office at (509) 575-2740.

In addition to public lands, WDFW's Private Lands Access Program has private land open for hunting under access agreements and a small number of pheasants are released on some of these lands. For maps and information about private and public hunting lands, please visit WDFW's online mapping program Go Hunt at www.wdfw.wa.gov/mapping/gohunt.

REGION 3
(509) 575-2740

Franklin County,
Washington**

REGION FIVE PHEASANT HUNTING INFORMATION

REGION FIVE

There are three pheasant release sites served by Washington Department of Fish and Wildlife in Klickitat County. One is located on department-owned land, and the others are on land owned by a private individual. Please treat the properties respectfully, so that future visitors may enjoy these sites as well. All sites are for day-use only; no overnight camping is allowed. These sites are relatively undeveloped, with primitive roads access. Roads may be slippery when wet, and soil

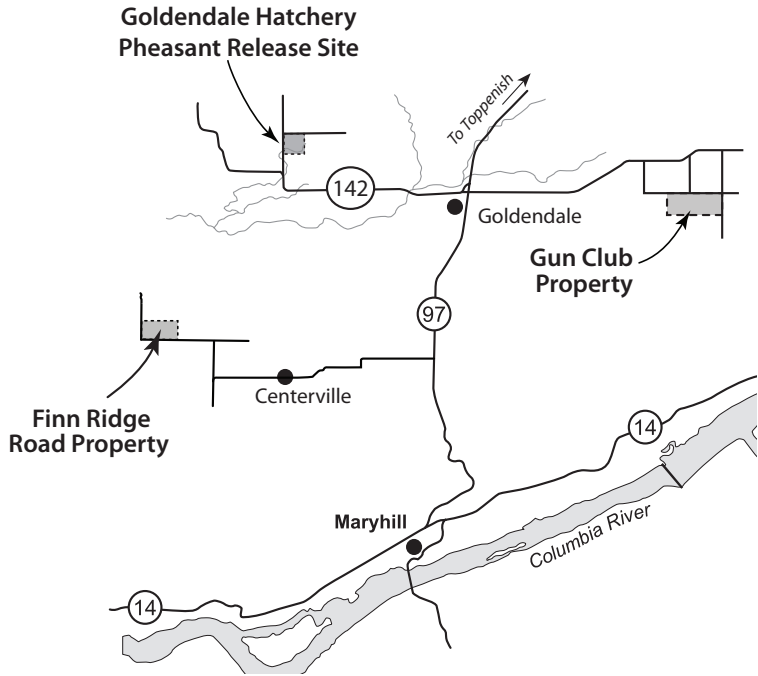

will become extremely soft with fall rains and snow. Be cautious in selecting parking places next to roads in order to avoid becoming stuck. Driving off-road across fields is never allowed regardless of season.

For maps and information about private and public hunting lands, please visit WDFW's online mapping program Go Hunt at www.wdfw.wa.gov/mapping/gohunt.

REGION 5
(360) 696-6211
2108 Grand Boulevard
Vancouver, WA 98661

FINN RIDGE ROAD RELEASE SITE

This 160-acre site is privately owned. It is bounded by the Finn Ridge Road along the south property line, and Ahola Road to the west.

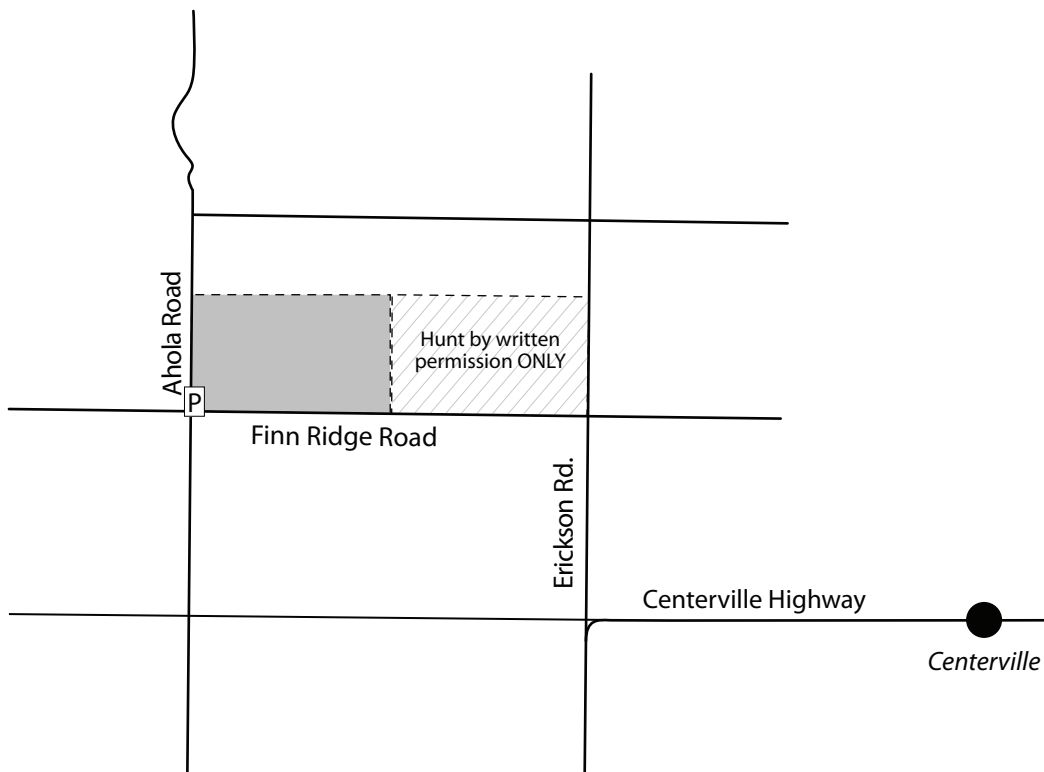

Directions: From Centerville, drive 2 miles west on the Centerville Highway to a 90 degree bend in the highway to the south. Turn right (north) on Erickson Road. Drive 1 mile to the intersection with the Finn Ridge Road. Turn left (west) onto Finn Ridge Road and follow it about 1.5 miles to the first sign marking the corner of the site, on the right. It is marked with green "Feel Free To Hunt" signs. A separate 160-acre private site, located just to the east, allows hunting by written permission, and is marked with yellow "Hunt by Written Permission" signs.

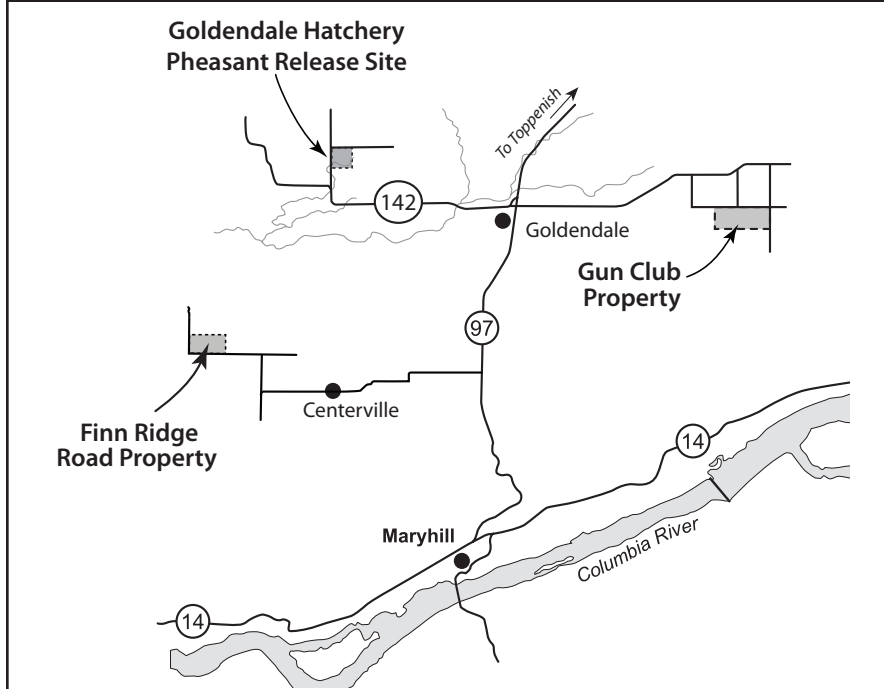

The pheasant release site has one gate on Finn Ridge Road, and one gate on Ahola Road. Park outside the gates and walk in. Use care when driving on Ahola Road, which can become impassible when wet.

RELEASE AREA**

FINN RIDGE ROAD RELEASE SITE Klickitat County, Washington

GOLDENDALE HATCHERY RELEASE SITE

This 240 acre site is owned by WDFW. It is bounded by Hill Road on the west side and Fish Hatchery Road on the North Side.

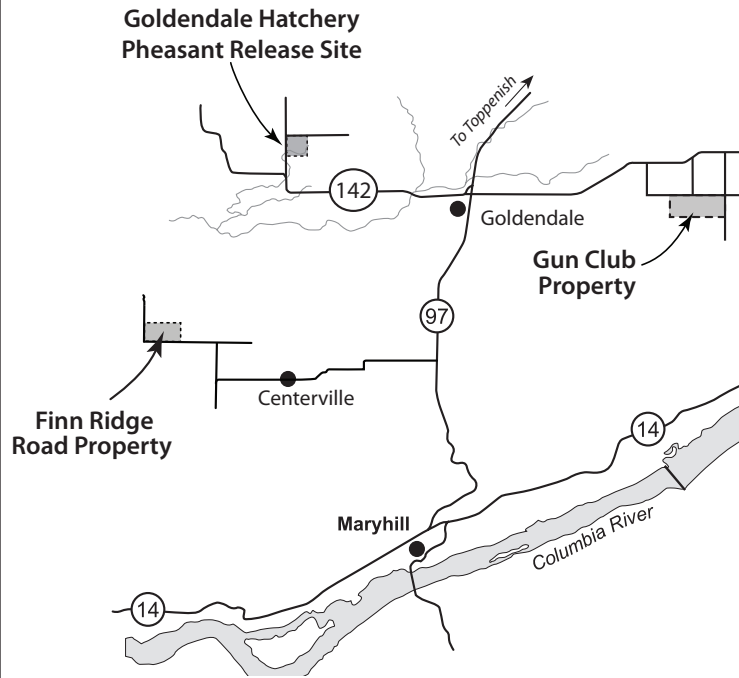

Directions: From Goldendale, drive west on Highway 142 approximately 4 miles to the intersection with Hill Road. Drive about 0.5 mile north on Hill Road, across the bridge over Spring Creek, then turn east on a dirt road onto WDFW property. This road goes into the center of the property. **Note:** The hatchery facilities are located along the east boundary of the parcel. Please stay away from the immediate vicinity of the buildings to protect worker safety.

NONTOXIC SHOT REQUIRED ON DESIGNATED RELEASE AREA

GOLDENDALE HATCHERY RELEASE SITE Klickitat County, Washington

GUN CLUB PROPERTY RELEASE SITE

This 480-acre site is privately owned. It is bounded by Rogers Road on the north and Fenton Lane on the east.

Directions: From the intersection with Broadway Street in Goldendale, drive east on the Bickleton Highway 5.6 miles to the intersection with Purvine Road. Turn right (south) on Purvine Road and drive .9 miles to the T intersection with Rogers Road. Go either left or right on Rogers Road and look for wire gates accessing the property. There are two gates. Both are marked with signs exhibiting the WDFW logo. Park along Rogers Road, outside the fence, and walk in.

Purvine Road may be impassible when wet. For an alternative access go east another 1 mile on the Bickleton Highway, and turn right (south) on Fenton Lane. Follow Fenton Lane south 1 mile to its intersection with Rogers Road. Turn right (west) onto Rogers Road, and drive about .1 mile west to a gate and parking area.
